A copy of the release is attached hereto as Exhibit 99.1 and incorporated herein by reference. The projections constituting the guidance included in the release involve risks and uncertainties, the outcome of which cannot be foreseen at this time; therefore, actual results may vary materially from these forecasts. In this regard, see the information included in the release under the caption “Forward-Looking Statements.”

The information in the release is “furnished” and not “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, and is not otherwise subject to the liabilities of that section. Such information may be incorporated by reference in another filing under the Securities Exchange Act of 1934 or the Securities Act of 1933 only if and to the extent such subsequent filing specifically references the information incorporated by reference herein.

The release contains non-GAAP financial measures; in the release these are referred to as “comparable” or “organic” measures. For purposes of Regulation G, a non-GAAP financial measure is a numerical measure of a registrant’s historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the statement of income, balance sheet or statement of cash flows (or equivalent statements) of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. In this regard, GAAP refers to generally accepted accounting principles in the United States. Pursuant to the requirements of Regulation G, the Company has provided reconciliations within the release of the non-GAAP financial measures to the most directly comparable GAAP financial measures.

The Company acquired The Prisoner Wine Company portfolio of brands and related assets (“Prisoner”) on April 29, 2016. The Company acquired all of the issued and outstanding common and preferred membership interests of High West Holdings, LLC (“High West”) on October 14, 2016. The Company sold its Canadian wine business on December 17, 2016 (the “Canadian Divestiture”). "It's been a dynamic time for our business. In 2017, Constellation was one of the best performers among S&P 500 Consumer Staples stocks driven by the overall strength of our results and the ongoing growth prospects for our business. We recently established a first mover advantage in an emerging consumer category with our investment in Canopy Growth. We continue to make smart investments with the planned addition of a fifth furnace at our glass production plant in Nava. And, we are pleased with the outcome of tax reform legislation that allows U.S. companies to remain competitive globally and we believe it will be positive for Constellation going forward."

November 30, 2016	56.3		\$964.6	\$335.7
% Change	5.9%	9.1%	7.8%	16.9%

HIGHLIGHTS

- The **Modelo brand family** drove strong portfolio performance and share gains with depletion growth of almost 17%.
- Shipment growth was below depletion growth primarily due to timing.** Year-to-date shipments grew at almost 8.5%. The beer business continues to target high-single digit volume growth and 9% - 11% net sales growth for fiscal 2018, with EBIT growth in the 18% - 19% range.
- Operating margin increased 290 basis points to 37.7%, driven primarily by **strong operating performance and favorable pricing.**

- The beer business won the Labor Day and Thanksgiving holidays with leading share gains in the U.S. beer market. **Corona Extra and Modelo Especial** continue to drive the growth of the portfolio with ongoing distribution and velocity gains.

- The addition of a fifth furnace at the glass production facility in Nava isa **high return investment**, as it represents the lowest cost source of glass supply.

Three Months Ended In millions; branded product, 9-liter case equivalents

(2) Three months ended November 30, 2016, includes net sales and operating income that are no longer part of the wine and spirits segment results after the sale of the Canadian wine business of \$99 million and \$17 million, respectively.

HIGHLIGHTS

- Year to date depletions are slightly positive. Excluding the impact of the Canadian wine business divestiture, the wine and spirits business is targeting net sales growth at the low end of the 4% - 6% range for fiscal 2018 driven primarily by **mix benefits.**
- Operating margin decreased 110 basis points to 26.2%, as mix benefits from portfolio premiumization efforts were more than offset by higher COGS and marketing investments. Year to date, operating margins expanded 170 basis points.

- Acquired brands including **The Prisoner, Meiomi, and Charles Smith** wine brands, as well as **High West Whiskey**, delivered exceptional depletion growth of 21%, 14%, 89% and 28%, respectively.
- The national television advertising campaign for **Kim Crawford** drove accelerating growth trends for the brand during the key holiday selling season.

"Our new, multi-year \$3 billion share repurchase program, along with more than \$200 million in share repurchases this quarter, demonstrates our confidence in our future growth prospects. We have significant capital allocation flexibility to invest in our business and return cash to shareholders, while remaining committed to our leverage target."

OUTLOOK

The table below sets forth management's current EPS expectations for fiscal 2018 compared to fiscal 2017 actual results, both on a reported basis and a comparable basis.

	Reported Basis		Comparable Basis	
	FY18 Estimate	FY17 Actual	FY18 Estimate	FY17 Actual
Fiscal Year Ending February 28	\$8.50 - \$8.60	\$7.52	\$8.40 - \$8.50	\$6.76

For fiscal 2018, the beer business continues to target net sales growth in the range of 9 - 11 percent and operating income growth is now targeted in the range of 18 - 19 percent. For the wine and spirits business, the company continues to expect net sales to decrease in the range of 4 - 6 percent and operating income to be flat. These projections include the estimated impact of the December 2016 divestiture of the Canadian wine business and the estimated incremental benefits from the **High West**, **Charles Smith** and **Prisoner** acquisitions. Excluding the \$311 million of net sales and \$50 million of operating income from the fiscal 2017 wine and spirits segment results related to the Canadian wine business divestiture, the company expects net sales growth of 4 - 6 percent and operating income growth of 5 - 7 percent for fiscal 2018. For the wine and spirits business, the company now expects results that will be at the lower end of the ranges provided for fiscal 2018.

Full-year fiscal 2018 guidance also includes the following current assumptions:

- Interest expense: \$330 - \$340 million
- Tax rate: approximately 20 percent, which excludes potential impact from U.S. tax reform
- Weighted average diluted shares outstanding: approximately 201 million
- Operating cash flow: \$1.9 - \$2.1 billion
- Capital expenditures: \$1.175 - \$1.275 billion, including approximately \$1.0 billion targeted for Mexico beer operations expansion activities
- Free cash flow: \$725 - \$825 million

The increased reported basis EPS guidance reflects a \$217 million pretax unrealized gain from the mark to fair value of the Company's investment in Canopy Growth Corporation, which is included in income from unconsolidated investments, and a \$59 million pretax loss associated with the restructuring of an agreement with Owens-Illinois, which is included in selling, general and administrative expenses.

RECONCILIATION OF REPORTED AND ORGANIC NET SALES

(in millions)
(unaudited)

For periods of acquisition, we define organic net sales as current period reported net sales less net sales of products of acquired businesses reported for the current period, as appropriate. For periods of divestiture, we define organic net sales as prior period reported net sales less net sales of products of divested businesses reported for the prior period, as appropriate. We provide organic net sales because we use this information in monitoring and evaluating the underlying business trends of our core operations. In addition, we believe this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance.

The company's more significant acquisitions impacting the periods below consist of (i) Prisoner (acquired April 29, 2016) and (ii) High West (acquired October 14, 2016) and Charles Smith (acquired October 19, 2016), collectively, the October 2016 Wine and Spirits Acquisitions. The divestiture impacting the periods below consists of the Canadian Divestiture (sold December 17, 2016).

(unaudited)

We report our financial results in accordance with generally accepted accounting principles in the U.S. ("GAAP"). However, non-GAAP financial measures, as defined in the reconciliation tables below, are provided because we use this information in evaluating the results of our core operations and/or internal goal setting. In addition, we believe this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance. See the tables below for supplemental financial data and corresponding reconciliations of these non-GAAP financial measures to GAAP financial measures for the periods presented. Non-GAAP financial measures should be viewed in addition to, and not as an alternative for, our reported results prepared in accordance with GAAP. Please refer to our website at <http://www.cbrands.com/investors> for a more detailed description and further discussion of these non-GAAP financial measures.

Free Cash Flow Guidance

Free cash flow, as defined in the reconciliation below, is considered a liquidity measure and is considered to provide useful information to investors about the amount of cash generated, which can then be used, after required debt service and dividend payments, for other general corporate purposes. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period. Free cash flow should be considered in addition to, not as a substitute for, or superior to, cash flow from operating activities prepared in accordance with GAAP.
