"We overcame a number of headwinds to deliver solid first quarter results marked by margin improvement and impressive depletion growth for our Beer Business and our Wine & Spirits Power Brand portfolio. While the slowdown of our Mexican beer production due to COVID-19 created short-term impact to distributor inventory levels, shipments, and net sales, we continue to win in sales channels that are open, consumer demand for our brands remains strong, and our outlook for the year remains positive."

Bill Newlands
President and Chief Executive Officer

"Our strong cash flow results provide financial flexibility as we continue to focus on reducing our debt levels. During the quarter we refinanced debt at favorable rates to enhance liquidity during this time of uncertainty."

Garth Hankinson
Chief Financial Officer

May 31, 2020	76.2	76.2		\$1,384.1	\$1,384.1	\$577.8
May 31, 2019	82.1	81.3		\$1,477.4	\$1,448.8	\$580.6

⁽²⁾ Three months ended May 31, 2019, includes an adjustment to remove volume associated with the Ballast Point craft beer business “Ballast Point Divestiture” for the period March 2, 2019, through May 31, 2019.

⁽³⁾ Three months ended May 31, 2019, includes \$28.6 million of net sales and \$3.8 million of gross profit less marketing that are no longer part of the beer segment results after the Ballast Point Divestiture.

HIGHLIGHTS

- **Constellation’s Beer Business** posted **depletion growth of 5.6%** as strong performance in off-premise channels more than offset the impact of the 75% reduction in the on-premise channel due to COVID-19 related shut-downs. When adjusted for one less selling day in the quarter, the beer business generated nearly 7% depletion growth.
- The **Corona Brand Family** grew **double-digits** in IRI channels driven by the accelerated growth of **Corona Extra**, the successful launch of **Corona Hard Seltzer**, and the continued strength of **Corona Premier** and **Corona Refresca**.
- With the **successful launch of Corona Hard Seltzer**, the brand has quickly become the **#4 hard seltzer player**, approaching 6% IRI market share in the U.S. hard seltzer category. Ongoing distribution gains have led to IRI ACV distribution of nearly 65 since product launch in early March.
- **Modelo Especial** continues to see accelerating consumer takeaway trends in IRI channels and delivered 12% depletion growth during the quarter.
- Impacts from the COVID-19 related slowdown of beer production in Mexico impacted shipment volumes and distributor inventory levels and will extend into Q2. Product inventories are expected to return to more normal levels during the third quarter fiscal 2021; long-term outlook remains intact.
- **Operating margin** increased 240 basis points to 41.7%, as benefits from timing of marketing spend and favorable pricing were partially offset by increased COGS.

⁽⁵⁾ Three months ended May 31, 2019, includes \$18.7 million of net sales and \$8.3 million of gross profit less marketing that are no longer part of the wine and spirits segment results after the Black Velvet Divestiture.

HIGHLIGHTS

- The **Power Brands** are winning in the higher-end and across the majority of price segments of the U.S. Wine category with strong velocity, and distribution gains that are outpacing the market. Power Brand depletion volume grew 5% driven by **Kim Crawford**, **Meiomi**, **SVEDKA**, **The Prisoner Brand Family**, and **Woodbridge by Robert Mondavi**.
- Innovation initiatives are driving growth with Power Brands like **The Prisoner Unshackled** and **Robert Mondavi Private Selection Buttery Chardonnay**.
- **Operating margin** increased 240 basis points to 28.3% as benefits from price, SG&A, and mix were partially offset by the Black Velvet Divestiture and higher COGS.
- **Empathy Wines** acquisition reinforces and supports the company’s direct-to-consumer and 3-tier eCommerce strategy, as consumers continue to migrate to these channels.

RECONCILIATION OF REPORTED AND ORGANIC NET SALES

(in millions)
(unaudited)

For periods of acquisition, we define organic net sales as current period reported net sales less net sales of products of acquired businesses reported for the current period, as appropriate. For periods of divestiture, we define organic net sales as prior period reported net sales less net sales of products of divested businesses reported for the prior period, as appropriate. We provide organic net sales because we use this information in monitoring and evaluating the underlying business trends of our core operations. In addition, we believe this information provides investors valuable insight on underlying business trends and results in order to evaluate year-over-year financial performance.

For the three months ended May 31, 2020, the (provision for) benefit from income taxes includes a net income tax provision recognized as a result of adjustments to valuation allowances and a net income tax provision related to legislative and governmental initiatives under the Coronavirus Aid, Relief, and Economic Security Act (“CARES Act”). For the three months ended May 31, 2019, the (provision for) benefit from income taxes includes net income tax benefit primarily from the reversal of a valuation allowance related to capital loss carryforwards as a result of classifying assets held for sale in connection with the definitive agreement to sell a portion of the wine and spirits business to E. & J. For the three months ended May 31, 2019, acquisitions, divestitures, and related costs consist primarily of a net income tax benefit recognized for the reversal of a valuation allowance and a gain related to the remeasurement of our previously held equity interest in Nelson’s Green Brier Distillery business to the acquisition-date fair value.

⁽⁵⁾ For the three months ended May 31, 2020, restructuring and other strategic business development costs consist primarily of equity losses from Canopy Growth Corporation (“Canopy”) related to costs designed to improve their organizational focus, streamline operations, and align production capability with projected demand. Free Cash Flow

Free cash flow, as defined in the reconciliation below, is considered a liquidity measure and is considered to provide useful information to investors about the amount of cash generated, which can then be used, after required debt service and dividend payments, for other general corporate purposes. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period. Free cash flow should be considered in addition to, not as a substitute for, or superior to, cash flow from operating activities prepared in accordance with GAAP.
