outlook

The table sets forth management's current EPS expectations for fiscal 2023 compared to fiscal 2022 actual results, on a reported basis, a comparable basis, and a comparable basis excluding Canopy equity earnings (losses) and related activities.

Fiscal Year Ending February 28	\$10.50 - \$10.80	\$(0.22)	\$11.20 - \$11.50	\$10.20	\$10.99

Fiscal 2023 Guidance Assumptions:

- Beer: net sales growth 7 - 9%; operating income growth 2 - 4%
- Wine and Spirits: net sales decline 1 - 3% and operating income growth 4 - 6%
- Interest expense: approximately \$350 - \$360 million

- Capital expenditures: \$1.3 - \$1.4 billion, including approximately \$1.2 billion targeted for Mexico beer operations expansion, optimization, and/or construction activities
- Free cash flow: \$1.3 - \$1.4 billion

The reported basis EPS guidance includes the fiscal 2023 year to date Canopy equity earnings and related activities impact. Our guidance does not reflect future changes in the fair value of the company's investment in Canopy's warrants and convertible debt securities. Additionally, the company continues to evaluate the future potential equity earnings impact from the Canopy equity method investment and related activities and, as such, these items have been excluded from the guidance assumptions noted above.

BEER BUSINESS CAPITAL EXPANSION

The company plans to invest in the next increment of capacity in Mexico that will provide the long-term flexibility needed to support the expected future growth of its high-end Mexican beer portfolio. As previously announced, total capital expenditures for the Beer Business are expected to be \$5.0 billion to \$5.5 billion over fiscal 2023 to fiscal 2026, with the majority of the spend expected to occur in the first three years of that timeframe. The investment will support the addition of up to 30 million hectoliters of modular capacity and includes the construction of a new brewery in Southeast Mexico in the state of Veracruz, as well as continued expansion, optimization, and/or construction at the company's existing sites in Nava and Obregon.

The company discusses various non-GAAP measures in this news release. Financial statements, as well as supplemental schedules and tables reconciling non-GAAP measures, together with definitions of these measures and the reasons management uses these measures, are included in this news release.

FORWARD-LOOKING STATEMENTS

The statements made under the heading Outlook and all statements other than statements of historical fact set forth in this news release regarding the company's business strategy, future operations, business, and financial position, expected net sales and operating income, projected costs and expenses, expected effective tax rates and anticipated tax liabilities, estimated diluted EPS and shares outstanding, expected capital expenditures, operating cash flow, and free cash flow, future payments of dividends, amount, manner, and timing of share repurchases under the share repurchase authorization, consumer demand, ESG goals and efforts, and prospects, plans, and objectives of management, as well as information concerning expected actions of third parties, are forward-looking statements (collectively, "Projections") that involve risks and uncertainties that could cause actual results to differ materially from those set forth in or implied by the Projections.

During the current quarter, Constellation Brands may reiterate the Projections. Prior to the start of the company's quiet period, which will begin at the close of business on August 31, 2022, the public can continue to rely on the Projections as still being Constellation Brands' current expectations on the matters covered, unless the company publishes a notice stating otherwise. During Constellation Brands' quiet period, the Projections should not be considered to constitute the company's expectations and should be considered historical, speaking as of prior to the quiet period only and not subject to update by the company.

The Projections are based on management's current expectations and, unless otherwise noted, do not take into account the impact of any future acquisition, investment, merger, or any other business combination, divestiture, restructuring or other strategic business realignments, financing or share repurchase that may be completed after the issuance of this release, potential common stock declassification, or incremental contingent consideration payment paid or specific amount of incremental contingent consideration payment received in association with divestitures. The Projections should not be construed in any manner as a guarantee that such results will in fact occur.

In addition to the risks and uncertainties of ordinary business operations, the Projections of the company contained in this news release are subject to risk uncertainty, and possible variance from management's expectations regarding:

- water, agricultural and other raw material, and packaging material supply, production, and/or shipment difficulties could adversely affect our ability to supply our customers;
- inflationary pressures and our ability to pass along rising costs to consumers through increased selling prices;
- actual impact to supply, production levels, and costs from global supply chain logistics, transportation challenges, wildfires, and severe weather events, due to, among other reasons, actual supply chain and transportation performance and the actual severity and geographical reach of wildfires and severe weather events;
- actual balance of supply and demand for our products and percentage of our portfolio distributed through any particular distributor;
- actual demand, net sales, channel proportions, and volume trends for our products;
- beer operations expansion, optimization, and/or construction activities, scope, capacity, costs (including impairments), capital expenditures, and timing due to, among other reasons, market conditions, our cash and debt position, receipt of required regulatory approvals in accordance with expected dates and terms, results of discussions with government officials in Mexico, the actual amount of non-recoverable brewery construction assets and other costs, and other factors determined by management;
- duration and impact of the COVID-19 pandemic, including but not limited to new variants, vaccine efficacy and immunization rates, closures of non-essential businesses, which may include our manufacturing facilities, and other associated governmental containment actions, and the increase in cyber-security attacks that have occurred while non-production employees work remotely;
- impact of the military conflict in Ukraine and associated geopolitical tensions and responses, including on inflation, supply chains, commodities, energy, and cyber-security;
- amount, timing, and source of funds for any share repurchases, exact duration of share repurchase programs, and number of shares outstanding;
- amount and timing of future dividends which are subject to the determination and discretion of our Board of Directors and may be impacted if our ability to use cash flow to fund dividends is affected by unanticipated increases in total net debt, we are unable to generate cash flow at anticipated levels, or we fail to generate expected earnings;
- fair value of and accuracy of projections relating to the Canopy investment, including any potential future impairment thereof;
- amount of contingent consideration, if any, received in divestitures depending upon actual future brand performance;
- expected impacts of wine and spirits portfolio refinement activities;
- accuracy of supply projections, including relating to beer operations expansion, optimization, and construction activities, wine and spirits operating activities, product inventory levels, and glass sourcing;
- operating cash flow, free cash flow, effective tax rate, and capital expenditures to support long-term growth;
- accuracy of projections associated with market opportunities, new products, and previously announced acquisitions, investments, and divestitures;
- general economic, geopolitical, domestic, international, and regulatory conditions, world financial market instability, recession, health epidemics or pandemics, unanticipated environmental liabilities and costs, or enhanced competitive activities;
- changes to international trade agreements, tariffs, accounting standards, elections, assertions, or policies, tax laws, or other governmental regulations, and other factors which could impact the company's reported financial position, results of operations, effective tax rate, or accuracy of any associated Projections;
- changes in interest rates and the inherent unpredictability of currency fluctuations, commodity prices, and raw materials; and

Free Cash Flow Guidance

Free cash flow, as defined in the reconciliation below, is considered a liquidity measure and is considered to provide useful information to investors about the amount of cash generated, which can then be used, after required debt service and dividend payments, for other general corporate purposes. A limitation of free cash flow is that it does not represent the total increase or decrease in the cash balance for the period. Free cash flow should be considered in addition to, not as a substitute for, or superior to, cash flow from operating activities prepared in accordance with GAAP.

CONSTELLATION BRANDS ANNOUNCES EXCHANGE OF CANOPY NOTES

VICTOR, N.Y., Jun. 29, 2022 - Constellation Brands, Inc. (NYSE: STZ and STZ.B), a leading beverage alcohol company, announced today that its indirect, wholly-owned subsidiary, Greenstar Canada Investment Limited Partnership (“Greenstar”), has entered into an exchange agreement (the “Exchange Agreement”) with Canopy Growth Corporation (“Canopy”), pursuant to which Greenstar has agreed to sell an aggregate of C\$100,000,000 principal amount of outstanding 4.25% senior notes due 2023 (“Notes”) to Canopy in consideration for common shares (“Common Shares”) in the capital of Canopy (other than in respect of accrued but unpaid interest which will be paid in cash). The transaction forms part of an exchange by Canopy of an aggregate of approximately C\$255,373,000 principal amount of Notes held by certain holders, including Greenstar (together, the “Exchanging Holders”) into Common Shares.

The number of Common Shares issuable to Greenstar will be calculated based on the volume-weighted average trading price of the Common Shares on the Nasdaq for a 10-day period beginning on and including June 30, 2022 (the “Exchange Price”), provided that the Exchange Price will not be less than US\$2.50 (the “Floor Price”) or more than US\$3.50, being the closing price of the Common Shares on the Nasdaq on June 29, 2022 (the “Market Price”). As the Exchange Price is not yet known, the actual number of Common Shares issuable to Greenstar pursuant to the Exchange Agreement is not yet known. Assuming the Floor Price and current exchange rates, Greenstar would receive an aggregate of 30,701,880 Common Shares, representing approximately 7.6% of the currently issued and outstanding Common Shares. Assuming the Market Price and current exchange rates, Greenstar would receive an aggregate of 21,929,914 Common Shares, representing approximately 5.4% of the currently issued outstanding Common Shares. The actual number of Common Shares to be issued will vary depending on the finally determined Exchange Price, but will not be less than the Floor Price or more than the Market Price.

Prior to Canopy entering into a second supplemental indenture amending the terms of the Notes that was effected on June 29, 2022 (the “Second Supplement”), the C\$200,000,000 principal amount of Notes held by Greenstar were convertible in certain circumstances and subject to certain conditions into an aggregate of 4,151,540 Common Shares. Pursuant to the Second Supplement, Canopy irrevocably surrendered its right to settle the conversion of any Note by the issuance of Common Shares or a combination of cash and Common Shares. As a result, the conversion of any Note will now be settled in cash. Accordingly, Greenstar no longer has beneficial ownership of any Common Shares as a result of its ownership of any Note, including in respect of its remaining C\$100,000,000 aggregate principal amount of Notes not subject to the Exchange Agreement.

Prior to the Second Supplement and entering the Exchange Agreement, Greenstar, individually, held 37,753,802 Common Shares, no warrants and C\$200,000,000 principal amount of Notes. The Common Shares held by Greenstar represented approximately 9.4% of the issued and outstanding Common Shares. Prior to the Second Supplement and entering the Exchange Agreement, subsidiaries of Constellation Brands held an aggregate of 142,253,802 Common Shares, 139,745,453 warrants and C\$200,000,000 principal amount of Notes, representing approximately 35.3% of the issued and outstanding Common Shares and, assuming full exercise of the warrants and the conversion of the Notes held by these entities, would have held approximately 52.3% of the then issued and outstanding Common Shares.

As a result of the Second Supplement and upon completion of the exchange contemplated by the Exchange Agreement, and the issuance of additional Common Shares to all other Exchanging Holders, Greenstar, individually, would hold 68,455,682 Common Shares (representing approximately 14.2% of the then issued and outstanding Common Shares) if the Exchange Price equals the Floor Price and 59,683,716 Common Shares (representing approximately 13.0% of the then issued and outstanding Common Shares) if the Exchange Price equals the Market Price. Greenstar itself would hold C\$100,000,000 principal amount of Notes and no warrants.

As a result of the Second Supplement and following completion of the exchange contemplated by the Exchange Agreement and the issuance of additional Common Shares to all other Exchanging Holders, subsidiaries of Constellation Brands would hold 172,955,682 Common Shares (representing approximately 35.9% of the then issued and outstanding Common Shares) if the Exchange Price equals the Floor Price and 164,183,716 Common Shares (representing approximately 35.8% of the then issued and outstanding Common Shares) if the Exchange Price equals the Market Price, 139,745,453 warrants, and C\$100,000,000 aggregate principal amount of Notes. Assuming full exercise of the warrants held by these subsidiaries and the transactions noted above, subsidiaries of Constellation Brands would hold 312,701,135 Common Shares, (representing approximately 50.3% of the then issued and outstanding Common Shares) if the Exchange Price equals the Floor Price or 303,929,169 Common Shares, (representing approximately 50.7% of the then issued and outstanding Common Shares) if the Exchange Price equals the Market Price, in each case assuming no other changes in Canopy's issued and outstanding Common Shares.

Constellation Brands may from time to time acquire or dispose of Common Shares or other securities of Canopy or exercise its warrants in the future, either on the open market or in private transactions, in each case, depending on a number of factors, including general market and economic conditions and other available investment opportunities. Depending on market conditions, general economic and industry conditions, Canopy's business and financial condition and/or other relevant factors, Constellation Brands may develop other plans or intentions in the future.

A copy of the early warning report filed in connection with this press release will be available on Canopy's profile on SEDAR at www.sedar.com or may be obtained by contacting Constellation Brands' Investor Center at 1-888-922-2150.

CONSTELLATION BRANDS ANNOUNCES AGREEMENT WITH SANDS FAMILY TO ELIMINATE CLASS B COMMON STOCK

Agreement provides multiple benefits including Corporate governance enhancements and operating cost savings

VICTOR, N.Y. Jun. 30, 2022—Constellation Brands (NYSE: STZ and STZ.B), a leading beverage alcohol company, announced today that following the recommendation of a special committee comprised solely of independent directors, its Board of Directors has approved, and will recommend to shareholders for approval, a proposal to eliminate the company’s Class B common stock. The proposed transaction contemplates that each outstanding share of the company’s Class B common stock, including those owned by the Sands Family, will be converted into the right to receive one share of Class A common stock plus cash consideration in the amount of \$64.64 per share of Class B common stock, or a total amount of \$1.5 billion. This represents a 26.5% premium relative to Constellation’s Class A common stock closing share price as of June 29, 2022.

The Company expects to realize a number of corporate governance and other benefits from the proposed reclassification, including:

- the elimination of the higher vote Class B common stock, including the associated voting control of the Sands Family, and a reduction in the concentration of voting power
- simplification of the Company’s equity capital structure to better align the voting rights and interests of all shareholders
- broader appeal of its shares to a larger base of investors who prefer single voting class common stock structures
- operating cost savings associated with executive salary and certain benefits (\$15-20 million of cost in fiscal 2022), as well as administrative savings from maintaining the Class B common stock
- rotation of the lead independent director position on the Board at the next available normal cycle opportunity
- shift to majority voting in uncontested elections from current plurality standard for its Board of Directors and adoption of a Board anti-pledging policy

In addition, upon completion of the reclassification, Robert and Richard Sands, who currently serve as Executive Chairman of the Board and Executive Vice Chairman of the Board, respectively, will retire from their employment with Constellation Brands in their current executive capacities. Robert Sands will become Non-Executive Chairman of the Board and Richard Sands will continue on as a Board member. It is expected that the Sands Family will continue to be Constellation’s largest shareholder following completion of the reclassification. Following the reclassification, the Sands Family will be subject to customary standstill provisions.

“After an extensive review and analysis by a Special Committee of the Constellation Brands Board of Directors, including input from an independent financial advisor and legal counsel, the Board agreed it is in the best interests of the Company and all Constellation shareholders, to eliminate the Class B common stock,” said Bill Newlands, Constellation’s President and CEO. “The proposed share reclassification will strengthen the Company’s corporate governance profile by aligning voting rights with the economic interests of all shareholders. In addition, the Company’s simplified capital structure will provide a solid foundation as the Company continues to pursue its strategic growth initiatives and capital allocation priorities to build shareholder value.”

This reclassification will not be put to a vote at the upcoming 2022 Annual Meeting of Shareholders. Instead, the Company will be seeking shareholder approval of the reclassification at a Special Meeting of Shareholders, to be held following effectiveness of a registration statement to be filed with the Securities and Exchange Commission. The reclassification is subject to the approval of a majority of the outstanding shares of Class A and Class B common stock, voting together as a single class, a majority of the outstanding shares of Class B common stock, and a majority of the issued and outstanding shares of Class A common stock not held by the Sands Family, executive officers of Constellation or directors that hold Class B common stock.

A complete description of the reclassification will be included in the proxy statement for the Special Meeting. The Company will announce details of the Special Meeting as soon as it is determined.

Centerview Partners LLC served as financial advisor and Potter Anderson & Corroon LLP served as legal counsel to the Special Committee of the Constellation Board of Directors. Greenhill & Co served as financial advisor and Wachtell, Lipton, Rosen & Katz served as legal counsel to the Sands Family. Kirkland & Ellis LLP served as legal counsel to Constellation.
