PROSPECTUS SUPPLEMENT SUMMARY

This summary highlights selected information about the Company and this offering. It does not contain all of the information that may be important to you in deciding whether to purchase the notes. We encourage you to read the entire prospectus supplement, the accompanying prospectus and the documents that we have filed with the SEC that are incorporated by reference herein prior to deciding whether to purchase the notes.

Constellation Brands, Inc.

We are an international producer and marketer of beer, wine and spirits with operations in the U.S., Mexico, New Zealand, Italy and Canada with more than 100 brands in our portfolio. In the U.S., we are the largest multi-category supplier (beer, wine and spirits) of beverage alcohol. We are the third-largest beer company in the U.S. market and the world's leading premium wine company.

Since our founding in 1945 as a producer and marketer of wine products, we have grown through a combination of internal growth and acquisitions. Our internal growth has been driven by leveraging our existing portfolio of leading brands, developing new products, new packaging and line extensions, and focusing on the faster growing sectors of the beverage alcohol industry. We conduct our business through entities we wholly own as well as a variety of joint ventures with various other entities, both within and outside the United States.

Our principal executive offices are located at 207 High Point Drive, Building 100, Victor, New York 14564 and our telephone number is 585-678-7100. We maintain a website at <http://www.cbrands.com>. Our website and the information contained on that site, or connected to that site, are not incorporated into this prospectus supplement, and you should not rely on any such information in making your decision whether to purchase the notes.

Recent Developments

On August 14, 2018, through a wholly-owned subsidiary, we entered into a Subscription Agreement (the "Purchase Agreement") with Canopy whereby we will purchase from Canopy 104,500,000 common shares and warrants to purchase an additional 139,745,453 common shares of Canopy for approximately C\$5.1 billion, or approximately \$4 billion (collectively, the "Canopy Investment"). The closing of the Canopy Investment is subject to the satisfaction of certain closing conditions, including the receipt of required regulatory approvals and third-party consents, and is expected to occur on or about October 31, 2018.

We currently own 18,876,901 common shares of Canopy through a wholly-owned subsidiary, representing an approximate 8% interest in Canopy, and warrants to purchase 18,876,901 common shares, representing an approximate additional 8% of outstanding common shares of Canopy, of which 50% have vested and the remaining 50% will vest on February 1, 2019. As a result of the Canopy Investment, we would own approximately 37% of the outstanding Canopy common shares. Upon the complete exercise of our warrants to purchase common shares of Canopy, on a consolidated basis, we would own approximately 55% of the outstanding Canopy common shares on a fully diluted basis.

To provide certainty of financing to fund the purchase price for the Canopy Investment and related costs, on September 14, 2018, we entered into the senior term credit facility, consisting of three-year senior unsecured term loan availability of \$500.0 million and five-year senior unsecured term loan availability of \$1.0 billion, and we increased amounts available under the revolving portion of our senior credit facility from \$1.5 billion to \$2.0 billion. On September 14, 2018, we also entered into a bridge credit agreement with Bank of America, N.A., as administrative agent, and certain other lenders under which the lenders committed to provide a senior unsecured 364-day term loan facility in an aggregate principal amount of C\$3.143 billion, or approximately \$2.4 billion, subject to certain closing conditions. We intend to use the net proceeds from this offering, together with borrowings under our senior term credit facility and our commercial paper program and cash on hand, to finance the Canopy Investment.

Ranking	<p>The notes of each series will be our senior unsecured obligations, will rank equally with all of our other senior unsecured indebtedness, and will be effectively subordinated to the indebtedness outstanding under any secured debt we may incur to the extent of the value of the assets securing such debt. The notes of each series will be fully and unconditionally guaranteed on a senior basis, jointly and severally, by the subsidiaries that are guarantors under our senior credit facility and/or our senior term credit facility. Each guarantee will be effectively subordinated to any secured obligations of the applicable subsidiary guarantor to the extent of the value of the assets securing such obligations. Holders of the notes of each series will not have a direct claim on assets of subsidiaries that do not guarantee the notes and the notes will be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes, including borrowings under the revolving portion of our senior credit facility in favor of a wholly-owned Luxembourg subsidiary of the Company.</p>
As of August 31, 2018, we (together with our subsidiaries that guarantee our senior credit facility) had approximately (i) \$9.9 billion aggregate principal amount of senior indebtedness outstanding, none of which was secured, and (ii) \$780.2 million of available undrawn commitments under the revolving portion of our senior credit facility, none of which would be secured. As of August 31, 2018, our non-guarantor subsidiaries had approximately \$1.3 billion of liabilities. For the fiscal year ended February 28, 2018 and the six months ended August 31, 2018, approximately \$191.3 million and \$98.9 million of our net sales, respectively, were from our subsidiaries that are not guarantors of the notes. See “Capitalization.”	
Special Mandatory Redemption	<p>If the Canopy Investment is not consummated on or prior to April 1, 2019 or prior to such date the Purchase Agreement is terminated without the completion of the Canopy Investment, we will be required to redeem each series of the notes at a price equal to 101% of the principal amount of the notes of such series, together with accrued and unpaid interest to, but excluding, the date of redemption. We might not be able to pay you the required price for notes you present to us at the time of a change of control because our senior credit facilities or other indebtedness may prohibit payment or we might not have enough funds at that time. See “Description of the Notes and the Guarantees—Repurchase at the Option of Holders upon a Change of Control Triggering Event.”</p>
Sinking Fund	<p>None.</p>
Covenants	<p>The indenture under which we will issue the notes of each series contains covenants that, among other things, limit our ability under certain circumstances to create liens, enter into sale-leaseback transactions and engage in mergers, consolidations and sales of all or substantially all of our assets. See “Description of the Notes and the Guarantees.”</p>
Use of Proceeds	<p>We intend to use the net proceeds from this offering, together with borrowings under our senior term credit facility and our commercial paper program and cash on hand, to finance the Canopy Investment. See “Use of Proceeds.”</p>
Risk Factors	<p>An investment in the notes involves a high degree of risk. Potential investors should carefully consider the risk factors set forth under the heading “Risk Factors” and in the documents incorporated by reference herein prior to making a decision to invest in the notes.</p>

RISK FACTORS

You should carefully consider the risks described below and in our documents filed with the SEC and incorporated by reference herein, as well as other information included in this prospectus supplement, the accompanying prospectus and the documents incorporated by reference in this prospectus supplement and the accompanying prospectus before buying any of the notes.

Risks Relating to the Company

You should carefully consider the risk factors and other cautionary statements included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2018, our Quarterly Report on Form 10-Q for the fiscal quarter ended August 31, 2018 and other documents filed with the SEC and incorporated by reference herein.

Risks Relating to the Notes

The notes are unsecured and will be effectively subordinated to our secured debt, if any, to the extent of the value of the assets securing such debt.

The notes will not be secured by any of our assets. As of August 31, 2018, we had no secured debt. Our obligations under our senior credit facilities are currently not secured. In addition, the indenture governing the notes will permit us and our subsidiaries to incur certain additional debt that is secured by liens on our assets without equally and ratably securing the notes. If the Company becomes insolvent or is liquidated, or if payment under our secured debt is accelerated, the holders of our secured debt would be entitled to exercise the remedies available to a secured lender under applicable law and pursuant to the agreement governing such debt. In any such event, because the notes will not be secured by any of our assets, it is possible that there would be no assets remaining from which claims of the holders of the notes could be satisfied following repayment of our secured debt or, if any such assets remained, such assets might be insufficient to satisfy such claims fully.

Our ability to make payments on the notes depends on our ability to receive dividends from our subsidiaries, and not all of our subsidiaries are guarantors of the notes. The notes will be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes.

We are a holding company and conduct almost all of our operations through our subsidiaries. As of August 31, 2018, approximately 96.6% of our tangible assets were held by our subsidiaries. The ownership interests of our subsidiaries represent substantially all the assets of the holding company. Accordingly, we are dependent on the cash flows of our subsidiaries to meet our obligations, including the payment of the principal and interest on the notes.

The notes of each series will be guaranteed, jointly and severally, by our subsidiaries that guarantee our senior credit facility and/or our senior term credit facility. Holders of the notes of each series will not have a direct claim on assets of subsidiaries that do not guarantee the notes and the notes will be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes, including any borrowings under the revolving portion of our senior credit facility in favor of a wholly-owned Luxembourg subsidiary of the Company. For the fiscal year ended February 28, 2018 and the six months ended August 31, 2018 approximately \$191.3 million and \$98.9 million of our net sales, respectively, were from our subsidiaries that are not guarantors of the notes. As of August 31, 2018, our non-guarantor subsidiaries had approximately \$1.3 billion of liabilities.

In the event of a special mandatory redemption, holders of the notes may not obtain their expected return on the notes.

If we redeem the notes pursuant to the special mandatory redemption provisions, you may not obtain your expected return on the notes and may not be able to reinvest the proceeds from such special mandatory redemption in an investment that results in a comparable return. In addition, as a result of the special mandatory redemption provisions of the notes, the trading prices of the notes between the date of issuance and the consummation of the Canopy Investment may not reflect the financial results of our business or macroeconomic factors and may be limited based on the special mandatory redemption price. You will have no rights under the special mandatory redemption provisions if the Canopy Investment closes, nor will you have any right to require us to repurchase your notes if, between the closing of this offering and the closing of the Canopy Investment, we or Canopy experience any changes (including any material changes) in our or their business or financial condition.

We are not obligated to place the proceeds from the sale of the notes in escrow prior to the closing of the Canopy Investment.

If the Canopy Investment is not consummated on or prior to April 1, 2019 or prior to such date the Purchase Agreement is terminated without the completion of the Canopy Investment, we will be required to redeem each series of the notes at a price equal to 101% of the principal amount of the notes of such series, together with accrued and unpaid interest to, but excluding, the date of redemption. See “Description of the Notes and the Guarantees—Special Mandatory Redemption.” We are not obligated to place the proceeds from the sale of the notes in escrow prior to the closing of the Canopy Investment or to provide a security interest in those proceeds, and there are no restrictions on our use of those proceeds during such time. Accordingly, we will need to fund any special mandatory redemption using proceeds of this offering that we have voluntarily retained, cash on hand and/or other sources of liquidity. We cannot assure you that we will have sufficient funds available when needed to make any required special mandatory redemption of the notes offered hereby. Any failure to redeem any of the notes would constitute a default under the indenture.

The subsidiary guarantees may be subject to challenge under fraudulent transfer laws.

Under U.S. bankruptcy law and comparable provisions of state fraudulent transfer laws, a court could subordinate or void any guarantee if it found that the guarantee was incurred with actual intent to hinder, delay or defraud creditors or the guarantor did not receive fair consideration or reasonably equivalent value for the guarantee and the guarantor was any of the following: (i) insolvent or was rendered insolvent because of the guarantee; (ii) engaged in a business or transaction for which its remaining assets constituted unreasonably small capital; or (iii) intending to incur, or believed that it would incur, debts beyond its ability to pay at maturity. To the extent any guarantee were to be voided as a fraudulent conveyance or held unenforceable for any other reason, holders of the notes would cease to have any claim in respect of such guarantor and would be creditors solely of us and any guarantor whose guarantee was not voided or held unenforceable. In such event, the claims of the holders of the notes against the issuer of an invalid guarantee would be subject to the prior payment of all liabilities of such guarantor. There can be no assurance that, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the notes relating to any voided guarantee.

The subsidiary guarantees may be limited in duration.

Each subsidiary guarantor will guarantee our obligations under the notes only for so long as each subsidiary guarantor is a guarantor under our senior credit facility and/or our senior term credit facility. If any or all of the subsidiary guarantees are released or terminated or no longer required under either of our senior credit facilities, such subsidiary guarantee(s) will be released under the indenture. The indenture does not contain any covenants that materially restrict our ability to sell, transfer or otherwise dispose of our assets, including the ownership interests of our subsidiaries, or the assets of any of our subsidiaries, except as described under the

Table of Contents

caption “Description of Debt Securities—Consolidation, Merger, Sale or Conveyance” in the accompanying prospectus.

We may not be able to repurchase the notes of any series upon a change of control triggering event.

We may be required to offer to repurchase all of the notes upon the occurrence of a change of control repurchase event. Our senior credit facilities currently also provide that certain change of control events constitute a default. If we experience a change of control that triggers a default under our senior credit facility or our senior term credit facility, such default could result in amounts outstanding under both senior credit facilities being declared due and payable. We would be prohibited from purchasing the notes of any series unless, and until, such time as our indebtedness under both senior credit facilities was repaid in full. There can be no assurance that either we or our subsidiary guarantors would have sufficient financial resources available to satisfy all of our or their obligations under our senior credit facilities and these notes in the event of a change of control. Our failure to purchase the notes as required under the indenture governing the notes would result in a default under the indenture, which could have material adverse consequences for us and the holders of the notes. See “Description of the Notes and the Guarantees—Repurchase at the Option of Holders Upon a Change of Control Triggering Event.”

The condition of the financial markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market prices of the notes.

The trading prices of the notes will be directly affected by the prevailing interest rates being paid by companies similar to us, and the overall condition of the financial and credit markets. It is impossible to predict the prevailing interest rates or the condition of the financial and credit markets. The condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future, which could have an adverse effect on the market prices of the notes.

The amount of interest payable on the floating rate notes is set only once per quarter based on the three-month LIBOR rate on the interest determination date, which rate may fluctuate substantially.

In the past, the level of the three-month LIBOR rate has experienced significant fluctuations. You should note that historical levels, fluctuations and trends of the three-month LIBOR rate are not necessarily indicative of future levels. Any historical upward or downward trend in the three-month LIBOR rate is not an indication that the three-month LIBOR rate is more or less likely to increase or decrease at any time, and you should not take the historical levels of the three-month LIBOR rate as an indication of its future performance. Additionally, although the actual three-month LIBOR rate on an interest payment date (as defined herein) or at other times during an interest period may be higher than the three-month LIBOR rate on the applicable interest determination date, the only relevant date for purposes of determining the interest payable on the floating rate notes is the three-month LIBOR rate as of the interest determination date for such interest period. Changes in the three-month LIBOR rates between interest determination dates will not affect the interest payable on the floating rate notes. As a result, changes in the three-month LIBOR rate may not result in a comparable change in the market value of the floating rate notes.

Uncertainty relating to the calculation of LIBOR and other reference rates and their potential discontinuance could have a material adverse effect on the value of the floating rate notes.

National and international regulators and law enforcement agencies have conducted investigations into a number of rates or indices which are deemed to be “reference rates.” Actions by such regulators and law enforcement agencies may result in changes to the manner in which certain reference rates are determined, their discontinuance, or the establishment of alternative reference rates, which could have a material adverse effect on the value of the floating rate notes. In particular, on July 27, 2017, the Chief Executive of the U.K. Financial Conduct Authority (the “FCA”), which regulates LIBOR, announced that the FCA will no longer persuade or

[Table of Contents](#)

compel banks to submit rates for the calculation of LIBOR after 2021. Such announcement indicates that the continuation of LIBOR on the current basis cannot and will not be guaranteed after 2021. Notwithstanding the foregoing, it appears highly likely that LIBOR will be discontinued or modified by 2021.

At this time, it is not possible to predict the effect that these developments, any discontinuance, modification or other reforms to LIBOR or any other reference rate, or the establishment of alternative reference rates may have on LIBOR, other benchmarks or floating rate debt securities, including the floating rate notes. Uncertainty as to the nature of such potential discontinuance, modification, alternative reference rates or other reforms may materially adversely affect the trading market for securities linked to such benchmarks, including the floating rate notes. Furthermore, the use of alternative reference rates or other reforms could cause the interest rate calculated for the floating rate notes to be materially different than expected.

If an alternative reference rate for LIBOR is determined as described in “Description of the Notes and the Guarantees—Interest Payments,” certain adjustments to such rate may be made, including applying a spread thereon or with respect to the business day convention, interest determination dates and related provisions and definitions, to make such alternative reference rate comparable to LIBOR, in a manner that is consistent with industry-accepted practices for such alternative reference rate. See “Description of the Notes and the Guarantees—Interest Payments.”

USE OF PROCEEDS

We estimate that the aggregate net proceeds from the sale of the notes will be approximately \$2,129.1 million (after deducting underwriter discounts and commissions and estimated offering expenses). We intend to use the net proceeds from this offering, together with borrowings under our senior term credit facility and our commercial paper program and cash on hand, to finance the Canopy Investment.

If the Canopy Investment is not consummated on or prior to April 1, 2019 or prior to such date the Purchase Agreement is terminated without the completion of the Canopy Investment, we will be required to redeem each series of the notes at a price equal to 101% of the principal amount of the notes of such series, together with accrued and unpaid interest to, but excluding, the date of redemption. See “Description of the Notes and the Guarantees —Special Mandatory Redemption.”

DIVIDEND POLICY

We have paid cash dividends on our common stock since May 2015. We currently expect to continue to pay a regular quarterly cash dividend to stockholders of our common stock in the future, but such payments are subject to approval of our Board of Directors and are dependent upon our financial condition, results of operations, capital requirements and other factors, including those set forth under Item 1A “Risk Factors” of our Annual Report on Form 10-K for the fiscal year ended February 28, 2018 and our Quarterly Report on Form 10-Q for the fiscal quarter ended August 31, 2018. In addition, the terms of our senior credit facilities may restrict the payment of cash dividends on our common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on our common stock.

CAPITALIZATION

The following table sets forth, as of August 31, 2018, our consolidated cash and cash equivalents and total capitalization on (i) an actual basis and (ii) as adjusted to give effect to the use of cash on hand, the sale of the notes and the borrowings under our senior term credit facility and our commercial paper program to fund the Canopy Investment and the payment of estimated related fees and expenses.

DESCRIPTION OF THE NOTES AND THE GUARANTEES

The following discussion of the terms of the notes of each series supplements the description of the general terms and provisions of the debt securities contained in the accompanying prospectus and identifies any general terms and provisions described in the accompanying prospectus that will not apply to the notes.

Unless otherwise indicated or the context requires otherwise, references in this section to “we,” “us,” “our” and the “Company” refer to Constellation Brands, Inc. only and not to its subsidiaries. Unless otherwise defined herein, capitalized terms used in the description below have the definitions given to them under “Certain Definitions” below.

General

The notes of each series will be issued under an indenture and a supplemental indenture thereto (together, the “*indenture*”), among us, Manufacturers and Traders Trust Company, as trustee, and the guarantors named therein. You should read the accompanying prospectus for a general discussion of the terms and provisions of the indenture.

The indenture does not limit the amount of notes, debentures or other evidences of indebtedness that we may issue thereunder and provides that notes, debentures or other evidences of indebtedness may be issued from time to time thereunder in one or more series. We are initially offering the notes in the aggregate principal amount of \$2,150,000,000. At any time following the issuance of the notes, we may, without the consent of the holders, issue additional notes (which are referred to as such below) and thereby increase that principal amount in the future, on the same terms and conditions and with the same CUSIP number as the notes of any series we offer by this prospectus supplement.

The floating rate notes will mature on November 15, 2021 and will bear interest as set forth under “—Interest Payments—Floating Rate Notes.” The 2025 notes will mature on November 15, 2025 and will bear interest at a rate of 4.400% per year. The 2028 notes will mature on November 15, 2028 and will bear interest at a rate of 4.650% per year. The 2048 notes will mature on November 15, 2048 and will bear interest at a rate of 5.250% per year. We will make payments on the notes at the offices of the trustee and may make payments by wire transfer for notes held in book-entry form or by check mailed to the address of the person entitled to the payment as it appears in the note register.

We will issue the notes only in fully registered form, without coupons, in denominations of \$2,000 and any integral multiple of \$1,000 in excess thereof.

Interest Payments

Floating Rate Notes

The floating rate notes will bear interest from October 29, 2018 or from the most recent interest payment date (as defined below) on which we have paid or provided for interest on the floating rate notes. The interest rate per annum for each interest period (as defined below) will be equal to LIBOR (as defined below) plus 0.70%, as determined on the applicable interest determination date (as defined below) by the calculation agent (except for the first interest period). Following the first interest period, the interest rate per annum for the floating rate notes will be reset quarterly on the first day of each interest period. Manufacturers and Traders Trust Company is initially acting as calculation agent. The interest determination date for an interest period will be the second Business Day (as defined below) preceding such interest period (the “*interest determination date*”). The interest determination date for the first interest period will be October 25, 2018.

The amount of interest for each day the floating rate notes are outstanding, which we refer to as the “*daily interest amount*,” is calculated by dividing the interest rate in effect with respect to the floating rate notes

Table of Contents

for that day by 360 and multiplying the result by the principal amount. The amount of interest to be paid on the floating rate notes for each interest period is calculated by adding the daily interest amounts applicable to such floating rate notes for each day in the interest period.

We will pay interest on the floating rate notes on February 15, May 15, August 15 and November 15 of each year, beginning on February 15, 2019, and at maturity. Each of these dates on which we will pay interest is referred to in this “Floating Rate Notes” section as an “*interest payment date*.” If any interest payment date would fall on a day that is not a Business Day, other than the interest payment date that is also the date of maturity for the floating rate notes, that interest payment date will be postponed to the following day that is a Business Day, except that if such next Business Day is in a different month, then that payment date will be the immediately preceding day that is a Business Day. If the date of maturity for the floating rate notes is not a Business Day, payment of principal and interest on the floating rate notes will be made on the following day that is a Business Day and no interest will accrue for the period from and after such date of maturity. Interest on the floating rate notes will be paid to the Person in whose name such floating rate note was registered at the close of business on February 1, May 1, August 1 or November 1 (whether or not such day is a Business Day) preceding the applicable interest payment date.

Except as described below for the first interest period, on each interest payment date, we will pay interest for the period beginning on and including the immediately preceding interest payment date and ending on and including the next day preceding that interest payment date. We refer to this period as an “*interest period*.” The “*first interest period*” will begin on and include October 29, 2018 and will end on but exclude February 15, 2019.

“*LIBOR*” will be determined by the calculation agent in accordance with the following provisions:

- (a) With respect to any interest determination date, LIBOR shall be the rate for deposits in United States dollars having a maturity of three-months beginning on the first day of the applicable interest period that appears on Bloomberg L.P.’s page “BBAM” as of 11:00 a.m., London time, on that interest determination date. If no rate appears on Bloomberg L.P.’s page “BBAM,” the calculation agent will obtain such rate from Reuters Screen LIBOR01 Page. If no rate appears on Bloomberg L.P.’s page “BBAM” or Reuters Screen LIBOR01 Page, then LIBOR, in respect of that interest determination date, will be determined in accordance with the provisions described in (b) and (c) below.
- (b) With respect to an interest determination date on which no rate appears on Bloomberg L.P.’s page “BBAM” or Reuters Screen LIBOR01 Page, except as provided in clause (c) below, as specified in (a) above, we will request the principal London offices of each of four major reference banks in the London interbank market, as selected by us, to provide the calculation agent with its offered quotation for deposits in United States dollars for the period of three months, beginning on the first day of the applicable interest period, to prime banks in the London interbank market at approximately 11:00 a.m., London time, on that interest determination date and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If at least two quotations are provided, then LIBOR on that interest determination date will be the arithmetic average of those quotations. If fewer than two quotations are provided, we will select three major banks in the City of New York and shall request each of them to provide to the calculation agent a quotation of the rate offered by them at approximately 11:00 a.m., in the City of New York, on the interest determination date for loans in United States dollars to leading European banks, having a three-month maturity and in a principal amount that is representative for a single transaction in United States dollars in that market at that time. If three quotations are provided, LIBOR will be the arithmetic average of the quotations provided; *provided, however*, that if the banks selected by us are not providing quotations in the manner described by this sentence, LIBOR will be the same as the rate determined for the immediately preceding interest reset date.

Table of Contents

- (c) Notwithstanding clause (b) above, if we determine that LIBOR has been permanently discontinued, the calculation agent will use, as directed by us, as a substitute for LIBOR (the “*Alternative Rate*”) and for each future interest determination date, the alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) that is consistent with accepted market practice. As part of such substitution, the calculation agent will, as directed by us, make such adjustments (“*Adjustments*”) to the Alternative Rate or the spread thereon, as well as the business day convention, interest determination dates and related provisions and definitions, in each case that are consistent with accepted market practice for the use of such Alternative Rate for debt obligations such as the floating rate notes; *provided, however*, that if we determine that there is no alternative reference rate selected by the central bank, reserve bank, monetary authority or any similar institution (including any committee or working group thereof) that is consistent with accepted market practice regarding a substitute for LIBOR, we will appoint in our sole discretion an independent financial advisor (the “*IFA*”) to determine the Alternative Rate and make any Adjustments thereon, and whose determinations will be binding on us, the trustee and the holders of the floating rate notes. If, however, we determine that LIBOR has been discontinued, but for any reason an Alternative Rate has not been determined, LIBOR will be equal to the rate of LIBOR for the current interest period.

“*London Banking Day*” is any day in which dealings in United States dollars are transacted in the London interbank market.

“*Bloomberg L.P.’s page “BBAM”*” means the display designated as Bloomberg L.P.’s page “BBAM” (or such other page as may replace page BBAM on that service or any successor service for the purpose of displaying London interbank offered rates for United States dollar deposits of major banks).

“*Reuters Screen LIBOR01 Page*” means the display designated on page “LIBOR01” on Reuters (or such other page as may replace the LIBOR01 page on that service or any successor service for the purpose of displaying London interbank offered rates for United States dollar deposits of major banks).

All percentages resulting from any of the above calculations will be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point, with five one-millionths of a percentage point rounded upwards (e.g., 9.876545% (or .09876545) being rounded to 9.87655% (or .0987655)) and all dollar amounts used in or resulting from such calculations will be rounded to the nearest cent (with one-half cent being rounded upwards).

The interest rate on the floating rate notes will in no event be higher than the maximum rate permitted by New York law as the same may be modified by United States law of general application. Additionally, the interest rate on the floating rate notes will in no event be lower than zero.

The calculation agent will, upon the request of the holder of any floating rate note, provide the interest rate then in effect. All calculations of the calculation agent, in the absence of manifest error, shall be conclusive for all purposes and binding on us and holders of the floating rate notes. We may appoint a successor calculation agent without the consent of the holders of the floating rate notes.

Fixed Rate Notes

Interest on each series of fixed rate notes will accrue from October 29, 2018 or from the most recent interest payment date to which interest has been paid or duly provided for. We will pay interest on each series of fixed rate notes semi-annually on May 15 and November 15 of each year, beginning May 15, 2019. We will pay interest on each series of the fixed rate notes to the Person in whose name a fixed rate note is registered at the close of business on the May 1 or November 1 preceding the interest payment date.

Table of Contents

If any interest payment date, maturity date or redemption date in respect of the fixed rate notes falls on a day that is not a Business Day, the payment will be made on the next Business Day with the same force and effect as if made on the relevant interest payment date, maturity date or redemption date, and no interest will accrue in respect of the delay.

We will compute interest on each series of the fixed rate notes on the basis of a 360-day year consisting of twelve 30-day months.

Subsidiary Guarantees

Our obligations under the indenture and the notes, including the payment of principal of, and premium, if any, and interest on, the notes, will be fully and unconditionally guaranteed by the subsidiaries of the Company that are guarantors of the Company's obligations under our senior credit facility and/or our senior term credit facility, provided that the guarantee of a subsidiary guarantor will be released (x) to the extent such subsidiary guarantor is released as a guarantor under our senior credit facilities (or a successor thereto), (y) to the extent the senior credit facilities are amended, amended and restated, refinanced, increased, extended, substituted, replaced or renewed without such subsidiary guarantor being a guarantor of the indebtedness thereunder, or (z) if our senior credit facilities are otherwise terminated or the requirements for legal or covenant defeasance or to discharge the indenture have been met.

The subsidiary guarantors' guarantees will be joint and several obligations.

The guarantees will be senior unsecured obligations of each subsidiary guarantor and will rank equally with all of the other senior unsecured obligations of the subsidiary guarantor. Each guarantee will be effectively subordinated to any secured obligations of the applicable subsidiary guarantor to the extent of the value of the assets securing such obligations. The obligations of each subsidiary guarantor under its guarantee will provide that it be limited as necessary to prevent that guarantee from constituting a fraudulent conveyance under applicable law.

If a guarantee were rendered voidable, it could be subordinated by a court to all other liabilities and obligations (including guarantees and other contingent liabilities) of the applicable subsidiary guarantor, and depending on the amount of such liabilities and obligations, a subsidiary guarantor's liability on its guarantee could be reduced to zero.

The indenture does not contain any restrictions on the ability of any subsidiary guarantor to (i) pay dividends or distributions on, or redeem, purchase, acquire, or make a liquidation payment with respect to, any of that subsidiary guarantor's ownership interests, (ii) make any payment of principal, premium, if any, or interest on or repay, repurchase or redeem any debt securities of that subsidiary guarantor or (iii) consolidate with, merge with or into, or transfer all or substantially all of its assets to another person or entity. If a subsidiary guarantor is merged or consolidated with or into another person that is the surviving company in that merger or consolidation and (a) the surviving company becomes a guarantor under our senior credit facility and/or our senior term credit facility, then the indenture will require that the surviving company expressly assume the obligations of the subsidiary guarantor under its guarantee or (b) the surviving company is not a guarantor under either of our senior credit facilities and we deliver an officer's certificate to the trustee to that effect, then the surviving company will be released from any obligations under the guarantee of the subsidiary that was so merged or consolidated.

Ranking

The notes will be our senior unsecured obligations and will rank equally with all of our other senior unsecured indebtedness and will be effectively subordinated to the indebtedness outstanding under any secured debt we may incur to the extent of the value of the assets securing such indebtedness. The notes will be fully and

Table of Contents

unconditionally guaranteed on a senior basis, jointly and severally, by the subsidiaries that are guarantors under our senior credit facility and/or our senior term credit facility, subject to the release provisions described above. Each guarantee will be effectively subordinated to any secured obligations of the applicable subsidiary guarantor to the extent of the value of the assets securing such obligations. The notes will also be structurally subordinated to all indebtedness and other liabilities of our subsidiaries that do not guarantee the notes.

We are a holding company and conduct almost all of our operations through our subsidiaries. Consequently, our ability to pay our obligations, including our obligation to pay interest on the notes and to repay the principal amount of the notes at maturity, upon redemption, upon acceleration or otherwise, will depend upon our subsidiaries' earnings and advances or loans made by them to us (and potentially dividends or distributions made by them to us). Our subsidiaries are separate and distinct legal entities and, except for the subsidiary guarantors' obligations under the subsidiary guarantees, have no obligation, contingent or otherwise, to pay any amounts due on the notes or to make funds available to us to do so. Our subsidiaries' ability to make advances or loans to us or to pay dividends or make other distributions to us will depend upon their operating results and will be subject to applicable laws and contractual restrictions, if any. The indenture will not limit our subsidiaries' ability to enter into other agreements that prohibit or restrict dividends or other payments or advances to us. Except with respect to the covenants described below under "—Limitation upon Liens" and "—Limitation on Sale and Leaseback Transactions," the indenture does not restrict or limit the ability of any subsidiary to incur, create, assume or guarantee indebtedness or encumber its assets or properties. As of August 31, 2018, we (together with our subsidiaries that guarantee our senior credit facility) had approximately (i) \$9.9 billion aggregate principal amount of senior indebtedness outstanding, none of which was secured, and (ii) \$780.2 million of unused commitments under the revolving portion of our senior credit facility, none of which would be secured. As of August 31, 2018, our non-guarantor subsidiaries had approximately \$1.3 billion of liabilities. See "Capitalization."

Special Mandatory Redemption

If the Canopy Investment is not consummated on or prior to April 1, 2019 or prior to such date the Purchase Agreement is terminated without the completion of the Canopy Investment (either of the foregoing, a "*Special Mandatory Redemption Event*"), the Company will be required to redeem each series of the notes on the Special Mandatory Redemption Date (as defined below) at a price (the "*Special Mandatory Redemption Price*") equal to 101% of the principal amount of the notes of such series, together with accrued and unpaid interest to, but excluding, the Special Mandatory Redemption Date. On the Business Day following the occurrence of a Special Mandatory Redemption Event, the Company (or the trustee upon the prior written direction from the Company and at the sole cost and expense of the Company) shall deliver a notice of special mandatory redemption in accordance with the applicable procedures of DTC to each holder of notes stating that the entire principal amount outstanding of the notes shall be redeemed at the Special Mandatory Redemption Price on the Special Mandatory Redemption Date specified therein automatically and without any further action by the holders of any series of the notes. Prior to the opening of business on the Special Mandatory Redemption Date, the Company shall deposit with the paying agent, or the trustee, cash in an aggregate amount equal to the Special Mandatory Redemption Price for each series of notes, calculated as of the Special Mandatory Redemption Date. If funds sufficient to pay the Special Mandatory Redemption Price with respect to a series of notes on the Special Mandatory Redemption Date are deposited with the trustee or the paying agent prior to the opening of business on the Special Mandatory Redemption Date, then, on and after the Special Mandatory Redemption Date, such notes will cease to bear interest. For purposes hereof, (x) the "*Purchase Agreement*" means that certain Subscription Agreement, dated as of August 14, 2018, by and between CBG Holdings LLC and Canopy Growth Corporation and (y) the "*Special Mandatory Redemption Date*" means a date that is five Business Days after the occurrence of a Special Mandatory Redemption Event.

Notwithstanding the foregoing, installments of interest on notes that are due and payable on interest payment dates falling on or prior to the Special Mandatory Redemption Date will be payable on such interest payment dates to the registered holders as of the close of business on the relevant record dates in accordance with the notes and the indenture.

Table of Contents

Upon the consummation of the Canopy Investment, the foregoing provisions regarding a special mandatory redemption will cease to apply.

(c) At any time prior to May 15, 2048 (six months prior to the maturity date of the 2048 notes), we may redeem the 2048 notes in whole or in part at any time or in part from time to time, at our option, at a redemption price equal to the greater of:

- 100% of the principal amount of the 2048 notes to be redeemed; and
- the sum of the present values of the remaining scheduled payments of principal and interest (excluding interest accrued to the redemption date) on the 2048 notes (assuming for this purpose, that the 2048 notes matured on May 15, 2048 (six months prior to the maturity date of the 2048 notes)) discounted to the date of redemption on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the applicable Treasury Rate plus 30 basis points,

Applicable defined terms are as follows:

“*Treasury Rate*” means, with respect to any redemption date, (1) the average of the yields in each statistical release for the immediately preceding week designated “H.15” or any successor publication which is published by the Board of Governors of the Federal Reserve System and which establishes yields on actively traded United States Treasury securities adjusted to constant maturity under “U.S. government securities—Treasury constant maturities—nominal,” for the maturity corresponding to the Comparable Treasury Issue (if no maturity is within three months before or after the remaining term of the fixed rate notes to be redeemed, yields for the two published maturities most closely corresponding to the Comparable Treasury Issue will be determined and the Treasury Rate will be interpolated or extrapolated from such yields on a straight line basis, rounding to the nearest month) or (2) if such release (or any successor release) is not published during the week preceding the calculation date or does not contain such yields, the rate per year equal to the semi-annual equivalent yield-to-maturity of the Comparable Treasury Issue, calculated using a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date. The Treasury Rate will be calculated on the third Business Day preceding the redemption date.

“*Comparable Treasury Issue*” means the United States Treasury security selected by an Independent Investment Banker as having a maturity comparable to the remaining term until (i) in the case of the 2025 notes, September 15, 2025, (ii) in the case of the 2028 notes, August 15, 2028 and (iii) in the case of the 2048 notes, May 15, 2048.

“*Comparable Treasury Price*” means (1) the average of four Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest Reference Treasury Dealer Quotations, or (2) if the Independent Investment Banker obtains fewer than four such Reference Treasury Dealer Quotations, the average of all such quotations.

“*Independent Investment Banker*” means a Reference Treasury Dealer selected by us.

“*Reference Treasury Dealer*” means any of (1) Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC or their affiliates; provided, however, that if Merrill Lynch, Pierce, Fenner & Smith Incorporated, Goldman Sachs & Co. LLC, J.P. Morgan Securities LLC or one of their affiliates cease to be a primary U.S. Government securities dealer in New York City, which we refer to as a “*Primary Treasury Dealer*,” we will substitute another Primary Treasury Dealer and (2) any other Primary Treasury Dealer selected by the Independent Investment Banker after consultation with us.

Table of Contents

“*Reference Treasury Dealer Quotations*” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Independent Investment Banker, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Independent Investment Banker at 5:00 p.m., New York City time, on the third Business Day preceding such redemption date.

Selection and Notice

We are required to notify the trustee of an optional redemption of a series of notes at least 30 and not more than 60 days before the date fixed for redemption for such series of notes. Holders of notes of the series to be redeemed will be sent a redemption notice by the trustee by first-class mail at least 10 and not more than 60 days before the date fixed for redemption. If fewer than all of the notes of a series are to be redeemed, the trustee will select, not more than 60 days and not less than 30 days before the redemption date, the particular notes or portions of the notes of such series for redemption from the outstanding notes of such series not previously called substantially pro rata or by lot in such manner as it shall deem appropriate and fair. Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions of the notes of a series called for redemption.

Repurchase at the Option of Holders Upon a Change of Control Triggering Event

Upon the occurrence of a Change of Control Triggering Event with respect to a series of notes, unless we have provided a notice of redemption to redeem the applicable series of notes as described above, each holder of notes of such series will have the right to require us to repurchase all or any part of such holder’s notes of such series (except that no note will be purchased in part if the remaining principal amount of such note would be less than \$2,000) pursuant to the offer described below (the “*Change of Control Offer*”) at a purchase price (the “*Change of Control Purchase Price*”) equal to 101% of the principal amount of the notes to be repurchased, plus accrued and unpaid interest to, but excluding, the repurchase date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date).

Within 30 days following any Change of Control Triggering Event with respect to a series of notes, we will:

- (a) cause a notice of the Change of Control Offer to be sent at least once to the Dow Jones News Service or similar business news service in the United States; and
- (b) send, by first-class mail, with a copy to the trustee, to each holder of notes of such series, at such holder’s address appearing in the security register, a notice stating:
 - (i) that a Change of Control Triggering Event has occurred and a Change of Control Offer is being made pursuant to the covenant entitled “Repurchase at the Option of Holders Upon a Change of Control” and that all notes of such series timely tendered will be accepted for payment;
 - (ii) the Change of Control Purchase Price and the repurchase date, which will be, subject to any contrary requirements of applicable law, a Business Day no earlier than 30 days nor later than 60 days from the date the notice is mailed;
 - (iii) the circumstances and relevant facts regarding the Change of Control Triggering Event (including information with respect to our *pro forma* consolidated historical income, cash flow and capitalization after giving effect to the Change of Control Triggering Event); and
 - (iv) the procedures that holders of notes of such series must follow in order to tender their notes (or portions thereof) for payment, and the procedures that holders of notes of such series must follow in order to withdraw an election to tender notes (or portions thereof) for payment.

Table of Contents

We will not be required to make a Change of Control Offer following a Change of Control Triggering Event if a third party makes the Change of Control Offer in the manner, at the times and otherwise in compliance with the requirements set forth in the indenture applicable to a Change of Control Offer made by us and purchases all notes validly tendered and not withdrawn under such Change of Control Offer.

We will comply, to the extent applicable, with the requirements of Section 14(c) of the Securities Exchange Act of 1934, as amended (the *Exchange Act*), and any other securities laws or regulations in connection with the repurchase of notes pursuant to a Change of Control Offer. To the extent that the provisions of any securities laws or regulations conflict with the provisions of the indenture or the notes, we will comply with the applicable securities laws and regulations and will not be deemed to have breached our obligations under the indenture or the notes by virtue of this compliance.

We have no present intention to engage in a transaction involving a Change of Control Triggering Event, although it is possible that we would decide to do so in the future. We could, in the future, enter into certain transactions, including acquisitions, refinancings or other recapitalizations, that would not constitute a Change of Control Triggering Event, but that could increase the amount of debt outstanding at such time or otherwise affect our capital structure or credit ratings.

The definition of Change of Control includes a phrase relating to the sale, transfer, assignment, lease, conveyance or other disposition of “all or substantially all” of our property. Although there is a developing body of case law interpreting the phrase “substantially all,” there is no precise established definition of the phrase under applicable law. Accordingly, if we and our subsidiaries, considered as a whole, dispose of less than all of our property by any of the means described above, the ability of a holder of notes to require us to repurchase its notes may be uncertain. In such a case, holders of the notes may not be able to resolve this uncertainty without resorting to legal action.

Sinking Fund

The notes will not have the benefit of any sinking fund.

Reports to the Trustee

We are required to provide the trustee with an officers’ certificate each fiscal year stating that we reviewed our activities during the preceding fiscal year and that, after reasonable investigation and inquiry by the certifying officers, we are in compliance with the requirements of the indenture.

Limitation Upon Liens

The indenture provides that, so long as any of the notes remain outstanding, we will not and will not permit any Subsidiary to issue, assume or guarantee any Funded Debt that is secured by a mortgage, pledge, security interest or other lien or encumbrance (a “*lien*”) upon or with respect to any Principal Property or on the Capital Stock of any Subsidiary that owns a Principal Property unless:

- we secure the notes equally and ratably with (or prior to) any and all Funded Debt secured by that lien, or
- in the case of Funded Debt other than Capital Markets Debt, immediately after giving effect to the granting of any such lien and the incurrence of any Funded Debt in connection therewith, the Company’s Consolidated Fixed Charge Coverage Ratio would be greater than 2.0 to 1.0.

The above limitations will not apply to some types of permitted liens. These permitted liens include:

- liens existing as of the date of the issuance of the notes (excluding any liens securing our senior credit facilities);

Table of Contents

- liens on property or assets of, or any shares of stock securing Funded Debt of, any corporation or other Person existing at the time such corporation or other Person becomes a Subsidiary;
- liens on property, assets or shares of stock securing Funded Debt existing at the time of an acquisition, including an acquisition through merger or consolidation, and liens to secure Funded Debt incurred prior to, at the time of or within 180 days after the later of the completion of the acquisition, or the completion of the construction and commencement of the operation of any such property, for the purpose of financing all or any part of the purchase price or construction cost of that property;
- liens to secure specified types of development, operation, construction, alteration, repair or improvement costs;
- liens in favor of, or which secure Funded Debt owing to, the Company or a Subsidiary;
- liens in connection with government contracts, including the assignment of moneys due or to come due on those contracts;
- certain types of liens in connection with legal proceedings;
- certain types of liens arising in the ordinary course of business and not in connection with the borrowing of money such as mechanics', materialmen's, carriers' or other similar liens;
- liens on property securing obligations issued by a domestic governmental issuer to finance the cost of an acquisition or construction of that property; and
- extensions, substitutions, replacements, refinancings or renewals (or successive extensions, substitutions, replacements, refinancings or renewals), in whole or in part, of the foregoing or of Funded Debt secured in reliance on the second bullet point under the first paragraph above, in each case, if the principal amount of the Funded Debt secured thereby is not increased and is not secured by any additional assets.

Limitation on Sale and Leaseback Transactions

The indenture provides that, so long as any of the notes remain outstanding, neither we nor any Subsidiary may enter into any arrangement with any Person (other than ourselves or any Subsidiary) where we or a Subsidiary agree to lease any Principal Property which has been or is to be sold or transferred more than 120 days after the later of (i) such Principal Property having been acquired by us or a Subsidiary and (ii) completion of construction and commencement of full operation thereof, by us or a Subsidiary to that person (a "*Sale and Leaseback Transaction*"). Sale and Leaseback Transactions with respect to facilities financed with specified tax exempt securities are excepted from the definition. This covenant does not apply to leases of a Principal Property for a term of less than three years.

This limitation also does not apply to any Sale and Leaseback Transaction if:

- the net proceeds to the Company or a Subsidiary from the sale or transfer equal or exceed the fair value, as determined by our Board of Directors, of the Principal Property so leased,
- immediately after giving effect to such Sale and Leaseback Transaction, the Company's Consolidated Fixed Charge Coverage Ratio would be greater than 2.0 to 1.0, or

Table of Contents

- we, within 120 days after the effective date of the Sale and Leaseback Transaction, apply an amount equal to the fair value as determined by the Company's Board of Directors of the Principal Property so leased to:
 - the prepayment or retirement of our Funded Debt, which may include the notes; or
 - the acquisition of additional real property.

Events of Default and Remedies

The events of default applicable to the notes of any series will consist of the following:

- failure to pay the principal of, or premium, if any, on any of the notes of such series when due and payable (whether at maturity, by call for redemption, by declaration of acceleration or otherwise);
- failure to make a payment of any interest on any note of such series when due and payable, which failure shall have continued for a period of 30 days;
- our, or any subsidiary guarantor's, failure to perform or observe any other covenants or agreements in the indenture, with respect to the notes of such series or in the notes of such series which failure shall have continued for a period of at least 90 days after written notice to us or the guarantors, as the case may be, by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding notes of such series provided, that, notwithstanding the foregoing, in no event shall an event of default with respect to any failure by us to comply with the reporting provisions of the indenture or any failure by us to comply with the requirements of Section 314(a)(1) of the Trust Indenture Act (which relates to the provision of reports) be deemed to have occurred unless (x) such report is past due hereunder by at least 180 days and (y) such failure to comply has not been cured or waived prior to the 90th day after written notice to us by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding notes of such series;
- failure to make any payment after the maturity of any indebtedness of ours with an aggregate principal amount in excess of \$150.0 million or the acceleration of indebtedness of ours with an aggregate principal amount in excess of \$150.0 million as a result of a default with respect to such indebtedness, and such indebtedness, in either case, is not discharged or such acceleration is not cured, waived, rescinded or annulled within a period of 30 days after we receive written notice;
- certain events of bankruptcy, insolvency or reorganization of us; or
- any guarantee of the notes of a subsidiary guarantor that is a significant subsidiary shall for any reason cease to be, or be asserted in writing by any subsidiary guarantor thereof or us not to be, in full force and effect, and enforceable in accordance with its terms except as provided in the indenture.

If an event of default (other than a bankruptcy, insolvency or reorganization event of default with respect to us) shall occur and be continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the then outstanding notes of such series may declare the principal amount of all notes of such series, to be due and payable immediately. If an event of default occurs as result of a bankruptcy, insolvency or reorganization event with respect to us, the outstanding notes of such series will automatically become due and payable immediately without any action on part of the holders.

At any time after such acceleration has occurred but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in aggregate principal amount of the

Table of Contents

outstanding notes of such series, by written notice to us and the trustee, may rescind and annul such declaration and its consequences if:

- (a) we have paid or deposited with the trustee a sum sufficient to pay
 - (i) all sums paid or advanced by the trustee under the indenture and the reasonable compensation, expenses, disbursements and advances of the trustee, its agents and counsel,
 - (ii) to the extent payment of such interest is lawful, if interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid, and
 - (iii) to the extent that payment of such interest is lawful, interest upon over-due interest at the rate borne by the notes;
- (b) all events of default, other than the non-payment of principal of the notes which have become due solely by such declaration of acceleration, have been cured or waived as provided in the indenture; and
- (c) the rescission will not conflict with any judgment or decree.

Modification of the Indenture

The indenture contains provisions permitting us, the subsidiary guarantors and the trustee to amend or supplement the indenture with respect to the notes of any series with the consent of the holders of a majority in principal amount of such series of notes then outstanding; provided that, notwithstanding the foregoing, the indenture may be amended or supplemented without the consent of holders in order to (a) evidence the succession of another person to us or any obligor on such series of notes or any guarantee and assumption of the covenants and obligations thereunder, pursuant to the merger covenant, (b) add covenants for the benefit of the holders of such series of notes or surrender rights conferred upon us under the indenture, such series of notes or any guarantee, (c) cure any ambiguity or correct any provisions that are defective or inconsistent with any other provision of the indenture, such series of notes or any guarantee or make any other change that does not materially affect the interests of the holders of such series of notes in any material respect, (d) comply with the requirements of the Commission to effect or maintain the indenture under the Trust Indenture Act, (e) evidence and provide acceptance of the appointment of a successor trustee under the indenture, (f) mortgage, pledge, hypothecate or grant a security interest in favor of the trustee for the benefit of the holders for payment of such series of notes, in any property or assets of us, (g) add a guarantor or release a guarantor in accordance with the terms of the indenture and (h) add or change any provisions of the indenture with respect to appointing a new trustee thereunder. If any additional notes of such series are issued under the indenture, such notes would constitute part of the same "series" of debt securities as the notes offered hereby and would be included in determining whether the holders of the requisite percentage of notes of such series had provided any instruction or consented to any amendment.

However, any other debt securities (other than additional notes of a series) that may be issued under the indenture will not vote together with the notes of any series and any additional notes that we issue. In any event, no amendment or supplement may, among other things, (a) extend the final maturity of any note, or reduce the rate or extend the time of payment of any interest on any note, or reduce the principal amount of any note, premium on any note, or reduce any amount payable upon any redemption of any note, (b) reduce the percentage of principal amount of the notes that is required to approve an amendment or supplement to the indenture, (c) following the occurrence of a Change of Control Triggering Event, amend, change or modify the obligation of us to make and consummate a Change of Control Offer in the event of a Change of Control Triggering Event, including amending, changing or modifying any definitions with respect thereto, (d) modify any of the provisions

related to this paragraph, the waiver of certain covenants, or the enforcement of the trustee's rights during an event of default, (e) except as otherwise permitted under the merger covenant, consent to the assignment or transfer by us of any of our rights and obligations under the indenture, or (f) change the currency of payment of principal, premium (if any) or interest on the notes, in each case, without the consent of the holder of each note so affected.

Legal Defeasance

We may be discharged from any and all obligations in respect of the notes of any series (except for certain obligations to register the transfer or exchange of such notes, to replace stolen, destroyed, lost or mutilated notes, to maintain paying agencies, to compensate and indemnify the trustee and to furnish the trustee with the names and addresses of holders of notes), which we refer to as "*defeasance*," if:

- we irrevocably deposit with the trustee, in trust, cash and/or securities of the United States government, or securities of agencies of the United States government backed by the full faith and credit of the United States government, in an amount certified by a nationally recognized firm of independent public accountants to be sufficient to pay the principal of and interest on the notes of such series on the applicable due dates for those payments in accordance with the terms of such notes;
- we deliver to the trustee either (i) an opinion of counsel, based on a ruling of the United States Internal Revenue Service (unless there has been a change in the applicable United States federal income tax law), to the effect that the holders of the notes of such series will not recognize income, gain or loss for United States federal income tax purposes as a result of such defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the defeasance had not occurred or (ii) a ruling of the United States Internal Revenue Service directed to the trustee to the same effect as set forth in clause (i) above;
- immediately after giving effect to the deposit specified in the first bullet point, no event of default with respect to the notes of such series shall have occurred and be continuing on the date of deposit or, with respect to defaults occurring upon certain events of bankruptcy, insolvency or reorganization relating to us, at any time during the period ending on the 91st day after the date of the deposit; and
- we deliver to the trustee an officers' certificate and an opinion of counsel each stating that we have complied with all of the above requirements.

Defeasance of Certain Obligations

We may omit to comply with certain covenants with respect to the notes of any series, and any such omission will not constitute an event of default with respect to the notes of such series, which we refer to as "*covenant defeasance*," if:

- we irrevocably deposit with the trustee, in trust, cash and/or securities of the United States government, or securities of agencies of the United States government backed by the full faith and credit of the United States government, in an amount certified by a nationally recognized firm of independent public accountants to be sufficient to pay the principal of and interest on the notes of such series on the applicable due dates for those payments in accordance with the terms of such notes;
- we deliver to the trustee an opinion of counsel to the effect that the holders of the notes of such series will not recognize income, gain or loss for United States federal income tax purposes as a

Table of Contents

result of such covenant defeasance and will be subject to United States federal income tax on the same amounts and in the same manner and at the same times as would have been the case if the covenant defeasance had not occurred;

- immediately after giving effect to the deposit specified in the first bullet point, on a pro forma basis, no event of default with respect to the notes shall have occurred and be continuing on the date of the deposit or, with respect to defaults occurring upon certain events of bankruptcy, insolvency or reorganization relating to us, at any time during the period ending on the 91st day after the date of the deposit;
- if the notes of such series are then listed on a national securities exchange, we deliver to the trustee an opinion of counsel to the effect that the notes of such series will not be delisted as a result of such covenant defeasance; and
- we deliver to the trustee an officers' certificate and an opinion of counsel each stating that we have complied with all of the above requirements.

If we exercise our option to effect a defeasance or covenant defeasance with respect to the notes of any series, as described above, and the trustee or paying agent is unable to apply any money or securities that we have deposited because of any legal proceeding or any order or judgment of any court or governmental authority, in each case our obligations under the indenture with respect to the notes of such series will be revived and reinstated.

Certain Definitions

The terms set forth below are defined in the indenture as follows:

“*Board of Directors*” means our board of directors, the executive committee of our board of directors, any other duly authorized committee of our board of directors, or any of our officers duly authorized by our board of directors or by any duly authorized committee of our board of directors to act under the indenture.

“*Business Day*” means any day that is not a day on which banking institutions in The City of New York are authorized or required by law or by executive order issued by a governmental authority or agency regulating such banking institutions to close; *provided* that, with respect to the floating rate notes, the day is also a London Banking Day.

“*Capital Lease Obligation*” means any obligations of us and our Subsidiaries on a Consolidated basis under any capital lease of real or personal property which, in accordance with GAAP, has been recorded as a capitalized lease obligation.

“*Capital Markets Debt*” means any debt securities or debt financing issued pursuant to an indenture, notes purchase agreement or similar financing arrangement (but excluding any credit agreement) whether offered pursuant to a registration statement under the Securities Act or under an exemption from the registration requirements of the Securities Act.

“*Capital Stock*” means, with respect to any Person, any and all shares, interests, participations or other equivalents (however designated, whether voting or non-voting) in the equity of such Person, including, without limitation, all common stock and preferred stock.

Person shall be deemed to have beneficial ownership of all shares that such Person has the right to acquire, whether such right is exercisable immediately or only after the passage of time), directly or indirectly, of more than 35% of the voting power of our total outstanding Voting Stock voting as one class, provided that the Permitted Holders “beneficially own” (as so defined) a percentage of Voting Stock having a lesser percentage of the voting power than such other Person and do not have the right or ability by voting power, contract or otherwise to elect or designate for election a majority of our Board of Directors; (ii) during any period of two consecutive years, individuals who at the beginning of such period constituted our Board of Directors (together with any new directors whose election to such Board or whose nomination for election by the shareholders was approved by a vote of 66 2/3% of the directors then still in office who were either directors at the beginning of such period or whose election or nomination for election was previously so approved) cease for any reason to constitute a majority of such Board of Directors then in office; (iii) we consolidate with or merge with or into any Person or convey, transfer or lease all or substantially all of our assets to any Person, or any corporation consolidates with or merges into or with us, in any such event pursuant to a transaction in which our outstanding Voting Stock is changed into or exchanged for cash, securities or other property, other than any such transaction where our outstanding Voting Stock is not changed or exchanged at all (except to the extent necessary to reflect a change in our jurisdiction of incorporation) or where (A) our outstanding Voting Stock is changed into or exchanged for (x) Voting Stock of the surviving corporation or (y) cash, securities and other property (other than Capital Stock of the surviving corporation) and (B) no “person” or “group” other than Permitted Holders owns immediately after such transaction, directly or indirectly, more than the greater of (1) 35% of the voting power of the total outstanding Voting Stock of the surviving corporation voting as one class and (2) the percentage of such voting power of the surviving corporation held, directly or indirectly, by Permitted Holders immediately after such transaction; or (iv) we are liquidated or dissolved or adopt a plan of liquidation or dissolution other than in a transaction which complies with the provisions described in the accompanying prospectus under the heading “Description of Debt Securities—Consolidation, Merger, Sale or Conveyance.”

Notwithstanding the foregoing, a ratings decline by a Rating Agency will not be deemed to have occurred in respect of a particular Change of Control if such Rating Agency making the reduction in rating to which this definition would otherwise apply does not publicly announce or confirm or inform the trustee in writing at our or the trustee’s request that the reduction was the result, in whole or in part, of any event or circumstance comprised of or arising as a result of, or in respect of, such Change of Control (whether or not the applicable Change of Control has occurred at the time of such decline).

first day of such period to (b) the sum of Consolidated Interest Expense for such period and cash dividends paid on any of our preferred stock and that of our Subsidiaries during such period; provided that (i) in making such computation, the Consolidated Interest Expense attributable to interest on any Funded Debt shall be computed on a pro forma basis for any incurrence or repayment of Funded Debt (other than Funded Debt under a revolving credit facility) following the first day of the applicable period and on or prior to the date of determination as if such incurrence or repayment had occurred on the first day of such period and Funded Debt (A) bearing a floating interest rate, shall be computed as if the rate in effect on the date of computation had been the applicable rate for the entire period and (B) which was not outstanding during the period for which the computation is being made but which bears, at our option, a fixed or floating rate of interest, shall be computed by applying at our option, either the fixed or floating rate and (ii) in making such computation, the Consolidated Interest Expense of the Company attributable to interest on any Funded Debt under a revolving credit facility computed on a pro forma basis shall be computed based upon the average daily balance of such Funded Debt during the applicable period.

Whenever pro forma effect is to be given to an acquisition or disposition of assets for the purpose of calculating the Consolidated Fixed Charge Coverage Ratio, the amount of Consolidated Interest Expense associated with any Funded Debt incurred in connection with such acquisition or disposition of assets shall be calculated on a pro forma basis in accordance with Regulation S-X under the Securities Act, as in effect on the date of such calculation.

“*Consolidated Net Income (Loss)*” of us means, for any period, the Consolidated net income (or loss) of us and our Subsidiaries for such period as determined in accordance with GAAP on a Consolidated basis, adjusted, to the extent included in calculating such net income (loss), by excluding, without duplication: (i) all extraordinary gains or losses (less all fees and expenses relating thereto); (ii) the portion of net income (or loss) of us and our Subsidiaries allocable to minority interests in unconsolidated Persons to the extent that cash dividends or distributions have not actually been received by us or one of our Subsidiaries; (iii) any gain or loss, net of taxes, realized upon the termination of any employee pension benefit plan; (iv) net gains (but not losses) (less all fees and expenses relating thereto) in respect of dispositions of assets other than in the ordinary course of business; or (v) the net income of any Subsidiary to the extent that the declaration of dividends or similar distributions by that Subsidiary of that income is not at the time permitted, directly or indirectly, by operation of the terms of its charter or any agreement, instrument, judgment, decree, order, statute, rule or governmental regulations applicable to that Subsidiary or its stockholders. We must give notice of any election made in accordance with this definition to the trustee and the holders of notes.

Global Notes; Book-Entry System

Global Notes

The notes will be issued initially in book-entry form and will be represented by one or more global notes in fully registered form without interest coupons which will be deposited with the trustee as custodian for The Depository Trust Company (“*DTC*”) and registered in the name of Cede & Co. (DTC’s partnership nominee) or such other name as may be requested by an authorized representative of DTC. If, however, the aggregate principal amount of any series of notes exceeds \$500.0 million, one certificate will be issued with respect to each \$500.0 million of principal amount of such series of notes, and an additional certificate will be issued with respect to any remaining principal amount of such series of notes. The deposit of securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual beneficial owners of the securities; DTC’s records reflect only the identity of the direct participants to whose accounts such securities are credited, which may or may not be the

beneficial owners. Direct and indirect participants will remain responsible for keeping account of their holdings on behalf of their customers. Except as set forth below, the global notes may be transferred, in whole and not in part, only to DTC or another nominee of DTC or to a successor of DTC or its nominee. Beneficial interests in the global notes may not be exchanged for certificated notes except in the limited circumstances described below.

All interests in the global notes will be subject to the rules and procedures of DTC, Euroclear Bank S.A./N.V. (*“Euroclear”*) and Clearstream Banking, *société anonyme* (*“Clearstream”*).

Certain Book-Entry Procedures for the Global Notes

The descriptions of the operations and procedures of DTC, Euroclear and Clearstream set forth below are provided solely as a matter of convenience. These operations and procedures are solely within the control of the respective settlement system and are subject to change by them from time to time. Neither we nor the underwriters take any responsibility for these operations or procedures, and investors are urged to contact the appropriate system or its participants directly to discuss these matters.

DTC has advised us that it is:

- a limited-purpose trust company organized under the laws of the State of New York;
- a “banking organization” within the meaning of the New York Banking Law;
- a member of the Federal Reserve System;
- a “clearing corporation” within the meaning of the New York Uniform Commercial Code, as amended; and
- a “clearing agency” registered pursuant to Section 17A of the Exchange Act.

DTC was created to hold securities for its participants and to facilitate the clearance and settlement of securities transactions between participants through electronic book-entry changes to the accounts of its participants, thereby eliminating the need for physical transfer and delivery of securities certificates. DTC’s participants include securities brokers and dealers (including one or more of the underwriters), banks and trust companies, clearing corporations and certain other organizations. Indirect access to DTC’s system is also available to other entities such as banks, brokers, dealers and trust companies, which we refer to collectively as the *“indirect participants,”* that clear through or maintain a custodial relationship with a participant either directly or indirectly. Investors who are not participants may beneficially own securities held by or on behalf of DTC only through participants or indirect participants. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation (*“DTCC”*). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with participants or indirect participants.

We expect that, pursuant to procedures established by DTC:

- upon deposit of each global note, DTC will credit, on its book-entry registration and transfer system, the accounts of participants designated by the underwriters with an interest in the global note; and
- ownership of beneficial interests in the global notes will be shown on, and the transfer of ownership of beneficial interests in the global notes will be effected only through, records maintained by DTC (with respect to the interests of participants) and the participants and the indirect participants (with respect to the interests of persons other than participants).

Table of Contents

Investors may hold their interests in a global note directly through Euroclear or Clearstream, if they are participants in those systems, or indirectly through organizations that are participants in those systems. Investors may also hold their interests in a global note through organizations other than Euroclear or Clearstream that are DTC participants. Each of Euroclear and Clearstream will appoint a DTC participant to act as its depository for the interests in a global note that are held within DTC for the account of each settlement system on behalf of its participants.

The laws of some jurisdictions may require that some purchasers of securities take physical delivery of those securities in definitive form. Accordingly, the ability to transfer beneficial interests in the notes represented by a global note to those persons may be limited. In addition, because DTC can act only on behalf of its participants, who in turn act on behalf of persons who hold interests through participants, the ability of a person holding a beneficial interest in a global note to pledge or transfer that interest to persons or entities that do not participate in DTC's system, or to otherwise take actions in respect of that interest, may be affected by the lack of a physical security in respect of that interest.

So long as DTC or its nominee is the registered owner of a global note, DTC or that nominee, as the case may be, will be considered the sole legal owner or holder of the notes represented by that global note for all purposes of the notes and the indenture. Except as provided below, owners of beneficial interests in a global note will not be entitled to have the notes represented by that global note registered in their names, will not receive or be entitled to receive physical delivery of certificated notes and will not be considered the owners or holders of the notes represented by that beneficial interest under the indenture for any purpose, including with respect to the giving of any direction, instruction or approval to the trustee. Owners of beneficial interests in a global note will not receive written confirmation from DTC of their purchase. Owners of beneficial interests in a global note are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participant through which the owner of beneficial interests in a global note entered into the transaction. Accordingly, each holder owning a beneficial interest in a global note must rely on the procedures of DTC and, if that holder is not a participant or an indirect participant, on the procedures of the participant through which that holder owns its interest, to exercise any rights of a holder of notes under the indenture or that global note. We understand that under existing industry practice, in the event that we request any action of holders of notes, or a holder that is an owner of a beneficial interest in a global note desires to take any action that DTC, as the holder of that global note, is entitled to take, DTC would authorize the participants to take that action and the participants would authorize holders owning through those participants to take that action or would otherwise act upon the instruction of those holders. Neither we nor the trustee will have any responsibility or liability for any aspect of the records relating to or payments made on account of notes by DTC or for maintaining, supervising or reviewing any records of DTC relating to the notes.

Payments with respect to the principal of and interest on a global note will be payable by the trustee to or at the direction of DTC or its nominee in its capacity as the registered holder of the global note under the indenture. Under the terms of the indenture, we and the trustee shall treat the persons in whose names the notes, including the global notes, are registered as the owners thereof for the purpose of receiving payment thereon and for any and all other purposes whatsoever. Accordingly, neither we nor the trustee has or will have any responsibility or liability for the payment of those amounts to owners of beneficial interests in a global note. Payments by the participants and the indirect participants to the owners of beneficial interests in a global note will be governed by standing instructions and customary industry practice and will be the responsibility of the participants and indirect participants and not of DTC.

Transfers between participants in DTC will be effected in accordance with DTC's procedures and will be settled in same-day funds. Transfers between participants in Euroclear or Clearstream will be effected in the ordinary way under the rules and operating procedures of those systems.

Cross-market transfers between DTC participants, on the one hand, and Euroclear or Clearstream participants, on the other hand, will be effected within DTC through the DTC participants that are acting as

Table of Contents

depositories for Euroclear and Clearstream. To deliver or receive an interest in a global note held in a Euroclear or Clearstream account, an investor must send transfer instructions to Euroclear or Clearstream, as the case may be, under the rules and procedures of that system and within the established deadlines of that system. If the transaction meets its settlement requirements, Euroclear or Clearstream, as the case may be, will send instructions to its DTC depository to take action to effect final settlement by delivering or receiving interests in the relevant global notes in DTC, and making or receiving payment under normal procedures for same-day funds settlement applicable to DTC. Euroclear and Clearstream participants may not deliver instructions directly to the DTC depositories that are acting for Euroclear or Clearstream.

Because of time zone differences, the securities account of a Euroclear or Clearstream participant that purchases an interest in a global note from a DTC participant will be credited on the business day for Euroclear or Clearstream immediately following the DTC settlement date. Cash received in Euroclear or Clearstream from the sale of an interest in a global note to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Euroclear or Clearstream cash account as of the business day for Euroclear or Clearstream following the DTC settlement date.

DTC, Euroclear and Clearstream have agreed to the above procedures to facilitate transfers of interests in the global notes among participants in those settlement systems. However, the settlement systems are not obligated to perform these procedures and may discontinue or change these procedures at any time. Neither we nor the trustee will have any responsibility for the performance by DTC, Euroclear or Clearstream or their participants or indirect participants of their obligations under the rules and procedures governing their operations.

We obtained the information in this section and elsewhere in this prospectus supplement concerning DTC and its book-entry system from sources that we believe are reliable, but we take no responsibility for the accuracy of any of this information.

Certificated Notes

We will issue certificated notes to each person that DTC identifies as the beneficial owner of the notes represented by a global note upon surrender by DTC of the global note only if:

- DTC notifies us that it is no longer willing or able to act as a depository for the global note, and we have not appointed a successor depository within 90 days of that notice;
- we decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository); or
- an event of default has occurred and is continuing and DTC so requests.

Neither we nor the trustee will be liable for any delay by DTC, its nominee or any direct or indirect participant in identifying the beneficial owners of the related notes. We and the trustee may conclusively rely on, and will be protected in relying on, instructions from DTC or its nominee for all purposes, including with respect to the registration and delivery, and the respective principal amounts, of the notes to be issued in certificated form.

MATERIAL UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of material U.S. federal income tax consequences of the acquisition, ownership and disposition of the notes and is based upon the provisions of the Internal Revenue Code of 1986, as amended, or the “Code,” the applicable Treasury Regulations promulgated and proposed thereunder, judicial authority and current administrative rulings and practice, all in effect as of the date hereof and all of which are subject to change, possibly with retroactive effect. The discussion does not purport to deal with all aspects of U.S. federal income taxation that might be relevant to particular holders in light of their personal investment circumstances or status, nor does it discuss the U.S. federal income tax consequences to holders subject to special treatment under the U.S. federal income tax laws (for example, financial institutions, insurance companies, regulated investment companies, dealers in securities, tax-exempt entities, U.S. expatriates, a person required to accelerate the recognition of any item of gross income with respect to the notes as a result of such income being recognized on an applicable financial statement, U.S. Holders (as defined below) whose “functional currency” is not the U.S. dollar, U.S. Holders who hold notes through a non-U.S. broker or other non-U.S. intermediary, persons subject to alternative minimum tax or taxpayers holding the notes through a partnership or similar pass-through entity or as part of a “straddle,” “hedge” or “conversion transaction”). Moreover, the effect of any applicable state, local or foreign tax laws and other U.S. federal tax laws (such as estate and gift tax and Medicare contribution tax laws) is not discussed.

This discussion assumes that the notes are held as capital assets (as defined in Section 1221 of the Code) by the holders thereof. The discussion is limited to the U.S. federal income tax consequences to holders acquiring notes at original issue for cash at their “issue price” (i.e., the first price at which a substantial amount of the notes is sold to the public for cash other than to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers).

If an entity treated as a partnership for U.S. federal income tax purposes holds notes, the U.S. federal income tax treatment of a partner of the partnership generally will depend upon the status of the partner and the activities of the partnership. If you are a partner in a partnership considering an investment in the notes, you are urged to consult your own tax advisor.

PROSPECTIVE HOLDERS ARE URGED TO CONSULT THEIR OWN TAX ADVISORS REGARDING THE UNITED STATES FEDERAL, STATE, LOCAL AND OTHER TAX CONSEQUENCES TO THEM OF THE ACQUISITION, OWNERSHIP AND DISPOSITION OF THE NOTES.

U.S. Holders

For purposes of the following discussion, the term “U.S. Holder” means a beneficial owner of a note who or which is, for U.S. federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation organized under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to U.S. federal income taxation regardless of its source; or
- a trust if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or if the trust has made a valid election to be treated as a United States person.

Interest on Notes

Interest on the notes generally will be included in income by a U.S. Holder as ordinary interest income when received or accrued in accordance with the U.S. Holder’s regular method of accounting for U.S. federal income tax purposes.

Table of Contents

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of Notes

Upon the sale, exchange, redemption, retirement or other taxable disposition of a note, a U.S. Holder will generally recognize gain or loss equal to the difference, if any, between:

- the amount of cash plus the fair market value of any property received (except to the extent that amounts received are attributable to accrued but unpaid interest, which would be taxed as ordinary income to the extent not previously included in income); and
- the U.S. Holder's adjusted tax basis in the note, which will generally equal the price paid for the note.

Any such gain or loss will be capital gain or loss and will be long-term capital gain or loss if the note has been held for more than one year at the time of disposition. For certain non-corporate U.S. holders, net long term capital gains are generally subject to tax at preferential rates. The deductibility of capital losses is subject to certain limitations.

Non-U.S. Holders

For purposes of the following discussion, the term "non-U.S. Holder" refers to a beneficial owner of a note that is for U.S. federal income tax purposes an individual, corporation, estate or trust that is not a U.S. Holder.

Interest on Notes

Subject to the discussion of backup withholding below, interest paid to a non-U.S. Holder in respect of the notes that is not effectively connected with the non-U.S. Holder's trade or business in the United States generally will not be subject to U.S. federal income or withholding tax provided that:

- the non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our voting stock;
- the non-U.S. Holder is not a "controlled foreign corporation" with respect to which we are a "related person" within the meaning of the Code;
- the non-U.S. Holder is not a bank receiving interest on an extension of credit made pursuant to a loan agreement in the ordinary course of its trade or business; and
- the non-U.S. Holder satisfies certain certification requirements. A non-U.S. Holder will generally satisfy such certification requirements if it certifies, under penalties of perjury, that it is not a United States person and provides its name and address. This certification requirement can generally be met by providing a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E.

If the above conditions are not met, interest paid to a non-U.S. Holder in respect of the notes that is not effectively connected with the non-U.S. Holder's trade or business generally will be subject to 30% U.S. federal withholding tax unless such non-U.S. Holder is entitled to a reduction in or an exemption from such withholding under an applicable income tax treaty between the United States and the non-U.S. Holder's country of residence provided that such non-U.S. Holder satisfies certain certification requirements (generally, on a properly executed IRS Form W-8BEN or IRS Form W-8BEN-E).

If a non-U.S. Holder is engaged in a trade or business in the United States and interest on the notes is effectively connected with the conduct of that trade or business, unless an applicable income tax treaty provides

otherwise, the non-U.S. Holder will be subject to U.S. federal income tax on the interest on a net income basis in the same manner as if such non-U.S. Holder were a U.S. Holder. Unless an applicable income tax treaty provides otherwise, any interest income that is effectively connected with the conduct of a U.S. trade or business will not be subject to withholding of U.S. federal income tax if the non-U.S. Holder satisfies certain certification requirements (generally, on a properly executed IRS Form W-8ECI or, in certain circumstances, IRS Form W-8BEN or IRS Form W-8BEN-E). A non-U.S. Holder that is a foreign corporation that is engaged in a trade or business in the United States may also be subject to an additional 30% (or, if a tax treaty applies, such lower rate as the treaty provides) branch profits tax on its effectively connected earnings and profits, subject to adjustments.

Notwithstanding the foregoing, interest paid to a non-U.S. Holder that is, or holds a note through, a foreign financial institution or non-financial foreign entity generally will be subject to a 30% U.S. federal withholding tax pursuant to the Foreign Account Tax Compliance Act (“*FATCA*”) unless, (1) if such non-U.S. Holder is, or holds a note through, a foreign financial institution, such foreign financial institution (i) has entered into an agreement with the U.S. government to collect and provide to the U.S. tax authorities information about its account holders (including certain investors in such institution) and, in certain instances, to withhold on payments to such persons, (ii) qualifies for an exception from the requirement to enter into such an agreement or (iii) complies with the terms of an applicable intergovernmental agreement between the U.S. government and the jurisdiction in which such foreign financial institution operates and, (2) if such non-U.S. Holder is, or holds a note through, a non-financial entity, such entity has provided certain information regarding its direct and indirect U.S. owners.

Sale, Exchange, Redemption, Retirement or Other Taxable Disposition of Notes

Subject to the discussion of backup withholding below, a non-U.S. Holder generally will not be subject to U.S. federal income or withholding tax on any gain recognized upon a sale, exchange, redemption, retirement or other taxable disposition of a note (other than amounts attributable to accrued and unpaid interest, which will be treated as described above under “Interest on Notes”) unless:

- that gain is effectively connected with the non-U.S. Holder’s conduct of a trade or business in the United States; or
- the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of the disposition and certain other conditions are met.

Unless an applicable income tax treaty provides otherwise, a non-U.S. Holder described in the first bullet point will be subject to U.S. federal income tax on the gain on a net income basis in the same manner as if such non-U.S. Holder were a U.S. Holder. If such non-U.S. Holder is a foreign corporation, it may also be subject to a 30% (or, if a tax treaty applies, such lower rate as the treaty provides) branch profits tax on its effectively connected earnings and profits, subject to adjustments. A non-U.S. Holder described in the second bullet point will be subject to a flat 30% U.S. federal income tax on such gain (which may be offset by certain U.S. source capital losses), unless an exemption or reduction under an applicable income tax treaty applies.

In the case of the sale or disposition of a note after December 31, 2018, a non-U.S. Holder will be subject to a 30% withholding tax on the gross proceeds of the sale or disposition unless the requirements described in relation to FATCA above under “—Interest on Notes” are satisfied. You are urged to consult your own tax advisor regarding the application of FATCA to your particular circumstances.

Backup Withholding and Information Reporting

Information returns may be filed with the IRS in connection with payments of interest on the notes and the proceeds from a sale or other disposition (including a retirement or redemption) of the notes. A U.S. Holder may be subject to United States backup withholding at a rate of 24% on the foregoing amounts if it fails to

[Table of Contents](#)

provide its taxpayer identification number to the applicable withholding agent and comply with certification procedures or otherwise establish an exemption from backup withholding. Certain U.S. Holders are exempt from backup withholding, including corporations.

A non-U.S. Holder may be subject to United States backup withholding on these payments unless the non-U.S. Holder complies with certification procedures to establish that it is not a U.S. person. The certification procedures required of non-U.S. Holders to claim the exemption from withholding tax on certain payments on the notes, described in general terms above, will satisfy the certification requirements necessary to avoid backup withholding as well.

Backup withholding is not an additional tax. The amount of any backup withholding from a payment will be allowed as a credit against the holder's U.S. federal income tax liability and may entitle the holder to a refund, provided that the required information is timely furnished to the IRS.

The underwriting agreement provides that the obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes. The offering of the notes by the underwriters is subject to receipt and acceptance and subject to the underwriters' right to reject any order in whole or in part. The underwriters may offer and sell notes through certain of their affiliates.

The underwriters propose to offer some of the notes directly to the public at the public offering prices set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession. The underwriters may allow, and dealers may reallow, a concession on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering prices and concessions.

We have agreed for a period of 60 days following the date of this prospectus supplement not to sell or announce an intention to sell any debt securities similar to the notes without the consent of the representatives.

The notes of each series are a new issue of securities with no established trading market. The notes of any series will not be listed on any securities exchange. We have been advised by the underwriters that they intend to make a market in the notes of each series, but the underwriters are not obligated to do so and may discontinue market making at any time without notice. We can give no assurance as to the liquidity of, or the trading market for, the notes of any series.

Table of Contents

In connection with the offering, the underwriters may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering (including underwriting discounts) will be approximately \$16.6 million.

The following table shows the amount of the underwriting discount provided to the underwriters in connection with this offering, expressed as a percentage of the principal amount of the notes and in total:

<u>Title of Notes</u>	<u>% Commission</u>	<u>Total</u>
\$650,000,000 Senior Floating Rate Notes due 2021	0.400%	\$2,600,000
\$500,000,000 4.400% Senior Notes due 2025	0.625%	\$3,125,000
\$500,000,000 4.650% Senior Notes due 2028	0.650%	\$3,250,000
\$500,000,000 5.250% Senior Notes due 2048	0.875%	\$4,375,000

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their respective affiliates have performed, and may in the future perform, various commercial banking, investment banking, hedging, brokerage and advisory services for us for which they have received, and will receive, customary fees and expenses. In particular, affiliates of certain of the underwriters are agents and/or lenders under our senior credit facility, senior term credit facility, bridge credit agreement and/or a foreign credit facility. In addition, an affiliate of Merrill Lynch, Pierce, Fenner & Smith Incorporated is a lender under a credit facility to a Sands family investment vehicle that, because of its relationship with members of the Sands family, is an affiliate of the Company. Such credit facility is secured by pledges of shares of class A common stock of the Company and class B common stock of the Company and personal guarantees of certain members of the Sands' family, including Richard Sands and Robert Sands.

If any of the underwriters or their affiliates has a lending relationship with us, certain of those underwriters or their affiliates routinely hedge, and certain other of those underwriters or their affiliates may hedge, their credit exposure to us consistent with their customary risk management policies. Typically, these underwriters and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in our securities, including potentially the notes offered hereby. Any such credit default swaps or short positions could adversely affect future trading prices of the notes offered hereby.

In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of the issuer (directly, as collateral securing other obligations or otherwise). The underwriters and their respective affiliates

may also make investment recommendations and/or publish or express independent research views in respect of such securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

We have agreed to indemnify the several underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

We expect that delivery of the notes will be made to investors on or about October 29, 2018 which will be the fifth business day following the date of this prospectus supplement (such settlement being referred to as “T+5”). Under Rule 15c 6-1 under the Securities Exchange Act of 1934, trades in the secondary market are required to settle in two business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date hereof or the next two succeeding business days will be required, by virtue of the fact that the notes initially settle in T+5, to specify an alternate settlement arrangement at the time of any such trade to prevent a failed settlement. Purchasers of the notes who wish to trade the notes on the date hereof or the next two succeeding business days should consult their advisors.

This prospectus supplement has been prepared on the basis that any offer of notes in any Member State of the EEA will be made pursuant to an exemption under the Prospectus Directive from the requirement to publish a prospectus for offers of notes. This prospectus supplement is not a prospectus for the purposes of the Prospectus Directive.

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS

This prospectus, any prospectus supplement or term sheet, and the documents we have incorporated by reference into this prospectus may contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act. These forward-looking statements are subject to a number of risks and uncertainties, many of which are beyond our control, that could cause actual results to differ materially from those set forth in, or implied by, our forward-looking statements. All statements other than statements of historical facts included in this prospectus and elsewhere regarding our business strategy, future operations, financial position, estimated revenues, projected costs, prospects, plans and objectives of management, as well as information concerning expected actions of third parties, are forward-looking statements. These forward-looking statements are identifiable by our use of such words as “anticipate,” “intend,” “estimate,” “expect,” “project” and similar expressions, although not all forward-looking statements contain such identifying words. All forward-looking statements speak only as of the date on which we make them. We do not undertake any obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct. Important factors that could cause our actual results to differ materially from our expectations, or “cautionary statements,” are disclosed in this prospectus, any prospectus supplement or term sheet and the documents incorporated by reference, including the “Risk Factors” section included in our filings with the SEC. The cautionary statements qualify all forward-looking statements attributable to us or persons acting on our behalf.

CONSTELLATION BRANDS, INC.

We are an international producer and marketer of beer, wine and spirits with operations in the U.S., Mexico, New Zealand, Italy and Canada and more than 100 brands in our portfolio. In the United States (“U.S.”), we are the largest multi-category supplier (beer, wine and spirits) of beverage alcohol. We are the third-largest beer company in the U.S. market and the world’s leading premium wine company. Many of our products are recognized as leaders in their respective categories. This, combined with our strong market positions, makes us a supplier of choice to many of our customers, who include wholesale distributors, retailers and on-premise locations.

Since our founding in 1945 as a producer and marketer of wine products, we have grown through a combination of internal growth and acquisitions. Our internal growth has been driven by leveraging our existing portfolio of leading brands, developing new products, new packaging and line extensions, and focusing on the faster growing sectors of the beverage alcohol industry. We conduct our business through entities we wholly own as well as a variety of joint ventures with various other entities, both within and outside the United States.

THE GUARANTORS

The guarantors of the debt securities may include the following companies, each of which is a direct or indirect subsidiary of Constellation Brands, Inc.: ALCOFI INC.; Constellation Beers Ltd.; Constellation Brands Beach Holdings, Inc.; Constellation Brands SMO, LLC; Constellation Brands U.S. Operations, Inc.; Constellation Leasing, LLC; Constellation Marketing Services, Inc.; Constellation Services LLC; Constellation Trading Company, Inc.; Crown Imports LLC; Franciscan Vineyards, Inc.; Home Brew Mart, Inc.; Robert Mondavi Investments; and The Hogue Cellars, Ltd. If so provided in a prospectus supplement or term sheet, each of the guarantors will guarantee on a joint and several basis our obligations under the debt securities, subject to certain limitations.

RISK FACTORS

Investing in our securities involves certain risks. You are urged to read and consider risk factors relating to an investment in our securities as described from time to time in our Annual Reports on Form 10-K, as may be updated from time to time in our Quarterly Reports on Form 10-Q filed with the SEC, each as incorporated by reference in this prospectus. Before making an investment decision, you should carefully consider these risks as well as other information we include or incorporate by reference in this prospectus. The risks and uncertainties we have described are not the only ones we face. The prospectus supplement applicable to each type or series of securities we offer will contain a discussion of additional risks applicable to an investment in us and the particular type of securities we are offering under that prospectus supplement.

USE OF PROCEEDS

Except as we may otherwise set forth in a prospectus supplement, we will use the net proceeds from the sale of the securities offered by this prospectus for general corporate purposes, including, but not limited to, repayment or refinancing of indebtedness, working capital, capital expenditures, share repurchases, dividend payments, and acquisitions. Pending the application of the proceeds, we will invest the proceeds in certificates of deposit, U.S. government securities or other interest bearing securities.

DIVIDEND POLICY

We have paid cash dividends on our common stock since May 2015. We currently expect to continue to pay a regular quarterly cash dividend to stockholders of our common stock in the future, but such payments are subject to approval of our Board of Directors and are dependent upon our financial condition, results of operations, capital requirements and other factors, including those set forth under Item 1A “Risk Factors” of our Annual Report on Form 10-K. In addition, the terms of our senior credit facility may restrict the payment of cash dividends on our common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on our common stock.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our historical ratio of earnings to fixed charges for the periods indicated. For the purpose of calculating the ratio of earnings to fixed charges, “earnings” represent income before income taxes (adjusted, as appropriate, for equity in earnings of equity method investees) plus fixed charges less interest capitalized. “Fixed charges” consist of interest expensed and capitalized, amortization of debt issuance costs, amortization of discount on debt, and the portion of rental expense which management believes is representative of the interest component of the lease expense.

DESCRIPTION OF DEBT SECURITIES

We may offer debt securities under this prospectus, any of which may be issued as convertible or exchangeable debt securities. The following description of the terms of the debt securities sets forth certain general terms and provisions of the debt securities to which any prospectus supplement or term sheet may relate. We will set forth the particular terms of the debt securities we offer in a prospectus supplement or term sheet. The extent, if any, to which the following general provisions apply to particular debt securities will be described in the applicable prospectus supplement or term sheet. The following description of general terms relating to the debt securities and the indenture (which includes one or more supplemental indentures) under which the debt securities will be issued are summaries only and therefore are not complete. You should read the indenture and the prospectus supplement or term sheet regarding any particular issuance of debt securities. If there are differences between the applicable prospectus supplement or term sheet and this prospectus, the prospectus supplement or term sheet will control.

The debt securities will represent our unsecured general obligations, unless otherwise provided in the prospectus supplement or term sheet. If so provided in a prospectus supplement or term sheet, the debt securities will have the benefit of the guarantees from the guarantors. Our subsidiaries are separate and distinct legal entities and have no obligation, contingent or otherwise, to pay any amounts due pursuant to the debt securities or to make any funds available therefor, whether by dividends, loans or other payments, other than as expressly provided in the guarantees.

Our ability to service our indebtedness, including the debt securities, is dependent primarily upon the receipt of funds from our subsidiaries. The payment of dividends or the making of loans and advances to us by our subsidiaries may be subject to contractual, statutory and regulatory restrictions, and are contingent upon the earnings of those subsidiaries and are subject to various business considerations. Further, any right we may have to receive assets of any of our subsidiaries upon liquidation or recapitalization of any such subsidiaries (and the

Table of Contents

consequent right of the holders of debt securities to participate in those assets) will be subject to the claims of our subsidiaries' creditors. Even in the event that we are recognized as a creditor of a subsidiary, our claims would still be subject to any security interest in the assets of such subsidiary and any indebtedness of such subsidiary senior to our claim.

The debt securities will be issued under an indenture entered into with the guarantors and the trustee. The indenture is subject to, and governed by, the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act").

Except to the extent described in a prospectus supplement or term sheet, the indenture does not contain any covenants or restrictions that afford holders of the debt securities special protection in the event of a change of control or highly leveraged transaction.

The following is a summary of certain provisions of the debt securities that may be issued under the indenture, and is not complete. A description of such debt securities shall be contained in a prospectus supplement or term sheet. You should carefully read the provisions of particular debt securities we may issue and the indenture under which the debt securities are issued, including the definitions in those documents of certain terms and of those terms made a part of those documents by the Trust Indenture Act.

General

The indenture does not limit the aggregate principal amount of debt securities which may be issued under it and provides that debt securities may be issued in one or more series, in such form or forms, with such terms and up to the aggregate principal amount that we may authorize from time to time. The particular terms of the debt securities offered pursuant to any prospectus supplement or term sheet will be described in the prospectus supplement or term sheet. All debt securities of one series need not be issued at the same time and, unless otherwise provided, a series may be reopened, without the consent of any holder, for issuances of additional debt securities of that series.

Unless otherwise provided in the prospectus supplement or term sheet, debt securities may be presented for registration of transfer and exchange and for payment or, if applicable, for conversion or exchange at the office of the trustee.

The applicable prospectus supplement or term sheet will describe the following terms of any debt securities in respect of which this prospectus is being delivered (to the extent applicable to the debt securities):

- (1) the title and designation of the debt securities of the series, and whether the debt securities are senior debt securities, senior subordinated debt securities or subordinated debt securities and, if senior subordinated or subordinated debt securities, the specific subordination provisions applicable thereto;
- (2) the total principal amount of the debt securities of the series and any limit on the total principal amount;
- (3) the price at which we will issue the debt securities of the series;
- (4) the terms, if any, by which holders may convert the debt securities of the series into or for our common stock or other of our securities or property;
- (5) if the debt securities of the series are convertible, any limitations on the ownership or transferability of the securities or property into which holders may convert the debt securities;
- (6) the date or dates, or the method for determining the date or dates, on which we will be obligated to pay the principal of the debt securities of the series and the amount of principal we will be obligated to pay;
- (7) the rate or rates, which may be fixed or variable, at which the debt securities of the series will bear interest, if any, or the method by which the rate or rates will be determined;
- (8) the date or dates, or the method for determining the date or dates, from which any interest will accrue on the debt securities of the series, the dates on which we will be obligated to pay any such interest, and the regular record dates, if any, for the determination of the persons to whom we will be obligated to pay such interest;

Table of Contents

- (9) the place or places where the principal of, and any premium, interest or other amounts payable (if any) on, the debt securities of the series will be payable or where the holders of the debt securities may surrender debt securities for conversion or transfer;
- (10) any provisions relating to the issuance of the debt securities at an original issue discount;
- (11) the period or periods during which, the price or prices (including any premium or other amount) at which, the currency or currencies in which, and the other terms and conditions upon which, we may redeem the debt securities of the series, at our option, if we have such an option;
- (12) our obligations (if any) to redeem, repay or purchase debt securities pursuant to any sinking fund or analogous provision or at the option of a holder of debt securities, and the price or prices at which, the period or periods within which and the terms and conditions upon which we will redeem, repay or purchase all or a portion of the debt securities of the series pursuant to that obligation;
- (13) if other than denominations of \$1,000 and any integral multiple thereof, the denominations in which the debt securities shall be issuable;
- (14) any events of default in lieu of or in addition to those described in this prospectus and remedies relating to such events of default;
- (15) if other than the trustee, the identity of each security registrar, transfer agent, paying agent or other agent for debt securities of the series;
- (16) the currency or currencies in which we will sell the debt securities and in which principal of, and any premium, or interest or other amounts payable (if any) on, the debt securities of the series will be denominated and payable;
- (17) whether the amount of payment of principal of, and any premium, or interest or other amounts payable (if any) on, the debt securities of the series may be determined with reference to an index, formula or other method and the manner in which the amounts will be determined;
- (18) whether and under what circumstances we will pay any additional amounts on the debt securities to any holder who is not a U.S. person in respect of any tax, assessment or governmental charge withheld or deducted and, if we will pay additional amounts, whether we will have the option, and on what terms to redeem the debt securities instead of paying the additional amounts;
- (19) if receipt of certain certificates or other documents or satisfaction of other conditions will be necessary for any purpose, including, without limitation, as a condition to the issuance of the debt securities in definitive form (whether upon original issue or upon exchange of a temporary debt security), the form and terms of such certificates, documents or conditions;
- (20) any other affirmative or negative covenant included for the benefit of the holders of the debt securities of the series;
- (21) whether the debt securities will be issued in whole or in part in the form of one or more global securities and, in such case, the depositary for such a global security and the circumstances under which any global security may be exchanged for debt securities registered in the name of, and under which any transfer of such global security may be registered in the name of, any person other than the depositary;
- (22) whether the debt securities are defeasible;
- (23) whether and the extent that the debt securities shall be guaranteed by the guarantors, the ranking of such guarantee, the terms of such subordination, if applicable, of any such guarantee and the form of any such guarantee;
- (24) if other than the principal amount thereof, the portion of the principal amount of the debt securities of the series which shall be payable upon declaration of acceleration of the maturity thereof pursuant to an event of default or provable in bankruptcy, or, if applicable, which is convertible;
- (25) any proposed listing of the debt securities of the series on any securities exchange; and

Table of Contents

(26) any other specific terms of the debt securities.

Unless otherwise indicated in the prospectus supplement or term sheet relating to the debt securities, principal of and any premium or interest on the debt securities will be payable, and the debt securities will be exchangeable and transfers thereof will be registrable, at the office of the trustee at its principal office. However, at our option, payment of interest may be made by check mailed to the address of the person entitled thereto as it appears in the debt security register. Any payment of principal and any premium or interest required to be made on an interest payment date, redemption date or at maturity which is not a business day need not be made on such date, but may be made on the next succeeding business day with the same force and effect as if made on the applicable date, and no interest shall accrue for the period from and after such date.

Unless otherwise indicated in the prospectus supplement or term sheet relating to debt securities, the debt securities will be issued only in fully registered form, without coupons, in denominations of \$1,000 or any integral multiple thereof. No service charge will be made for any transfer or exchange of the debt securities, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with a transfer or exchange.

Debt securities may be issued under the indenture for federal income tax purposes as Original Issue Discount Securities (as defined below). Federal income tax consequences and other special considerations applicable to any such Original Issue Discount Securities (or other debt securities treated as issued at an original issue discount) will be described in the prospectus supplement relating to such securities. "Original Issue Discount Security" generally means any debt security that (i) is issued at a price lower than its principal amount (subject to a de minimus exception), (ii) does not require the payment of interest in cash or property (other than debt instruments of the issuer) at least annually throughout the term of the debt security or (iii) is issuable in exchange for property (including other debt instruments) and does not provide for adequate stated interest.

Global Securities

The debt securities of a series may be issued in the form of one or more global securities that will be deposited with a depository or its nominees identified in the prospectus supplement or term sheet relating to the debt securities. In such a case, one or more global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding debt securities of the series to be represented by such global security or securities.

No global security may be transferred except as a whole by a nominee of the depository for such global security to the depository or a nominee of the depository and except in the circumstances described in the prospectus supplement or term sheet relating to the debt securities. The specific terms of the depository arrangement with respect to a series of debt securities will be described in the prospectus supplement or term sheet relating to such series.

Guarantees

The debt securities may (if so specified in the prospectus supplement or term sheet) be guaranteed, jointly and severally, by all of the guarantors pursuant to guarantees. Guarantees will not be applicable to or guarantee our obligations with respect to the conversion of the debt securities into shares of our capital stock or other securities. Each guarantee will be an unsecured obligation of each guarantor issuing such guarantee unless otherwise provided in the prospectus supplement or term sheet. The ranking of a guarantee and the terms of the subordination, if any, will be set forth in the prospectus supplement or term sheet.

The indenture provides that, in the event any guarantee would constitute or result in a violation of any applicable fraudulent conveyance or similar law of any relevant jurisdiction, the liability of the guarantor under such guarantee will be reduced to the maximum amount (after giving effect to all other contingent and other liabilities of such guarantor) permissible under the applicable fraudulent conveyance or similar law.

Table of Contents

Consolidation, Merger, Sale or Conveyance

The indenture provides that we may consolidate with, or sell, convey or lease all or substantially all of our assets to, or merge with or into, any other corporation, if:

- either we are the continuing corporation, or the successor corporation expressly assumes the due and punctual payment of the principal of and interest on all the debt securities outstanding under the indenture according to their tenor and the due and punctual performance and observance of all of the covenants and conditions of the indenture to be performed or observed by us; and
- immediately after the merger or consolidation, or the sale, conveyance or lease, no event of default, and no event which, after notice or lapse of time or both, would become an event of default, shall have occurred and be continuing.

Modification of the Indenture

We and the trustee may modify the indenture with respect to the debt securities of any series, with or without the consent of the holders of debt securities, under certain circumstances to be described in a prospectus supplement or term sheet.

Satisfaction and Discharge of Indenture

We may terminate our obligations under the debt securities of any series, except for certain limited surviving obligations, if either all of the debt securities of such series have been delivered to the trustee for cancellation or we deposit with the trustee cash or appropriate government obligations sufficient for the payment of principal and interest on the debt securities of such series to maturity and meet certain other conditions.

Defaults and Notice

The debt securities will contain events of default to be specified in the applicable prospectus supplement or term sheet, including, without limitation:

- failure to pay the principal of, or premium, if any, on any debt security of such series when due and payable (whether at maturity, by call for redemption, through any mandatory sinking fund, by redemption at the option of the holder, by declaration of acceleration or otherwise);
- failure to make a payment of any interest on any debt security of such series when due and payable, which failure shall have continued for a period of 30 days;
- our, or any guarantor's, failure to perform or observe any other covenants or agreements in the indenture or in the debt securities of such series which failure shall have continued for a period of at least 90 days after written notice to us or the guarantors, as the case may be, by the trustee or to us and the trustee from the holders of not less than 25% of the aggregate principal amount of the then outstanding debt securities of such series;
- certain events of bankruptcy, insolvency or reorganization of us; and
- any guarantee of a guarantor that is a significant subsidiary in respect of such series of debt securities shall for any reason cease to be, or be asserted in writing by any guarantor thereof or us not to be, in full force and effect, and enforceable in accordance with its terms subject to certain exceptions.

If an event of default with respect to debt securities of any series shall occur and be continuing, the trustee or the holders of not less than 25% in aggregate principal amount of the then outstanding debt securities of such series may declare the principal amount (or, if the debt securities of such series are issued at an original issue discount, such portion of the principal amount as may be specified in the terms of the debt securities of such series) of all debt securities of such series or such other amount or amounts as the debt securities or supplemental indenture with respect to such series may provide, to be due and payable immediately.

Table of Contents

The indenture provides that, at any time after a declaration of acceleration with respect to the debt securities of any series as described in the preceding paragraph, the holders of a majority in principal amount of the then outstanding debt securities of such series may rescind and cancel such declaration and its consequences:

- (1) if the rescission would not conflict with any judgment or decree;
- (2) if all existing events of default with respect to the debt securities of such series have been cured or waived except nonpayment of principal or interest that has become due solely because of the acceleration;
- (3) to the extent the payment of such interest is lawful, if interest on overdue installments of interest and overdue principal, which has become due otherwise than by such declaration of acceleration, has been paid; and
- (4) if the Company has paid the trustee its reasonable compensation and reimbursed the trustee for its expenses, disbursements and advances.

No such rescission shall affect any subsequent default or event of default or impair any right consequent thereto.

The indenture provides that the trustee will, within 90 days after the occurrence of a default, give to holders of debt securities of any series notice of all uncured defaults with respect to such series known to it. However, except in the case of a default that results from the failure to make any payment of the principal of, premium, if any, or interest on the debt securities of any series, or in the payment of any mandatory sinking fund installment with respect to debt securities of such series, the trustee may withhold such notice if in good faith determines that the withholding of such notice is in the interest of the holders of debt securities of such series.

The indenture contains a provision entitling the trustee to be offered reasonable indemnity by holders of debt securities before proceeding to exercise any trust or power under the indenture at the request of such holders. The indenture provides that the holders of a majority in aggregate principal amount of the then outstanding debt securities of any series may direct the time, method and place of conducting any proceedings for any remedy available to the trustee, or of exercising any trust or power conferred upon the trustee with respect to the debt securities of such series. However, the trustee may decline to follow any such direction if, among other reasons, the trustee determines in good faith that the actions or proceedings, as directed, would involve the trustee in personal liability or would be unduly prejudicial to the holders of the debt securities of such series not joining in such direction.

The right of a holder of debt securities of any series to institute a proceeding with respect to the indenture is subject to certain conditions including that the holders of at least 25% in aggregate principal amount of the debt securities of such series then outstanding make a written request upon the trustee to exercise its power under the indenture, offer reasonable indemnity to the trustee and afford the trustee reasonable opportunity to act. Even so, the holder has an absolute right to receipt of the principal of, premium, if any, and interest when due, to require conversion of debt securities if the indenture provides for convertibility at the option of the holder and to institute suit for the enforcement of such rights.

Concerning the Trustee

The prospectus supplement or term sheet with respect to particular debt securities will describe any relationship that we may have with the trustee for such debt securities.

Reports to Holders of Debt Securities

We intend to furnish to holders of debt securities all quarterly and annual reports that we furnish to holders of our common stock, and file such additional information, documents and reports as may be required by the rules and regulations prescribed from time to time by the Securities and Exchange Commission.

DESCRIPTION OF PREFERRED STOCK

Our board of directors is authorized to issue in one or more series, generally without stockholder approval, up to 1,000,000 shares of preferred stock, par value \$.01 per share. Undesignated shares of preferred stock can be issued with such designations, preferences, qualifications, privileges, limitations, restrictions, options, voting powers (full or limited), conversion or exchange rights and other special or relative rights as the board of directors shall from time to time fix by resolution. Thus, unless a specific stockholder approval requirement applies and subject to any statutory or contractual or other limitations as to class rights or other matters that might apply, our board of directors could authorize the issuance of preferred stock with voting, conversion and other rights that could dilute the voting power and other rights of holders of our common stock. The prospectus supplement or term sheet relating to a series of preferred stock will set forth the dividend, voting, conversion, exchange, repurchase and redemption rights, if applicable, the liquidation preference, and other specific terms of such series of preferred stock.

The description of certain provisions of the preferred stock set forth in any prospectus supplement or term sheet does not purport to be complete and is subject to and qualified in its entirety by reference to our certificate of incorporation and the certificate of designations relating to each series of preferred stock. The applicable prospectus supplement or term sheet will describe the specific terms of any series of preferred stock being offered which may include:

- the specific designation, number of shares, seniority and purchase price;
- any liquidation preference per share;
- any date of maturity;
- any redemption, repayment or sinking fund provisions;
- any dividend rate or rates and the dates on which any such dividends will be payable (or the method by which such rates or dates will be determined);
- any voting rights;
- if other than the currency of the United States, the currency or currencies (including composite currencies) in which such preferred stock is denominated and in which payments will or may be payable;
- the method by which amounts in respect of such series of preferred stock may be calculated and any commodities, currencies or indices, or value, rate or price, relevant to such calculation;
- whether such series of preferred stock is convertible or exchangeable and, if so, the securities or rights into which it is convertible or exchangeable, and the terms and conditions upon which such conversions or exchanges will be effected;
- the place or places where dividends and other payments on such series of preferred stock will be payable; and
- any additional voting, dividend, liquidation, redemption and other rights, preferences, privileges, limitations and restrictions.

As described under “Description of Depositary Shares” below, we may, at our option, elect to offer depositary shares evidenced by depositary receipts, each representing an interest (to be specified in the prospectus supplement or term sheet relating to the particular series of preferred stock) in a share of the particular series of preferred stock issued and deposited with a depository.

All shares of preferred stock offered by this prospectus, or issuable upon conversion, exchange or exercise of securities, will, when issued, be validly issued and fully paid and non-assessable.

DESCRIPTION OF DEPOSITARY SHARES

We may offer fractional shares of preferred stock rather than full shares of preferred stock, and, in that event, will issue receipts for depositary shares. Each of these depositary shares will represent a fraction, which will be set forth in the applicable prospectus supplement or term sheet, of a share of the applicable series of preferred stock. The shares of any series of preferred stock underlying any depositary shares that we may sell under this prospectus will be deposited under a deposit agreement between us and a depositary selected by us. Subject to the terms of the deposit agreement, each holder of a depositary share will be entitled, in proportion to the applicable fraction of a share of the preferred stock underlying the depositary share, to all of the rights, preferences and privileges, and be subject to the qualifications and restrictions, of the preferred stock underlying that depositary share. The description set forth below and in any prospectus supplement or term sheet of certain provisions of the deposit agreement and of the depositary shares and depositary receipts is not complete. You should carefully review the prospectus supplement or term sheet and the form of deposit agreement and form of depositary receipts relating to each series of preferred stock.

General

We may, at our option, elect to have shares of any series of preferred stock be represented by depositary shares. The shares of any series of preferred stock underlying the depositary shares will be deposited under a separate deposit agreement that we will enter with a bank or trust company having its principal office in the United States and a combined capital and surplus of at least \$50,000,000. This bank or trust company will be considered the depositary. The prospectus supplement or term sheet relating to a series of depositary shares will set forth the name and address of the depositary. Subject to the terms of the deposit agreement, each owner of a depositary share will be entitled, in proportion to the applicable interest in the number of shares of such series of preferred stock underlying such depositary share, to all the rights and preferences of such series of preferred stock underlying such depositary share (including dividend, voting, redemption, conversion, exchange and liquidation rights).

The depositary shares will be evidenced by depositary receipts issued pursuant to the deposit agreement, each of which will represent the applicable interest in a number of shares of such series of preferred stock described in the applicable prospectus supplement or term sheet.

Unless otherwise specified in the prospectus supplement or term sheet, a holder of depositary shares is not entitled to receive the shares of such series of preferred stock underlying the depositary shares.

Pending the preparation of definitive depositary receipts, the depositary may, upon our written order, issue temporary depositary receipts substantially identical to the definitive depositary receipts. Definitive depositary receipts will thereafter be prepared without unreasonable delay.

Dividends and Other Distributions

The depositary will distribute all cash dividends or other cash distributions received in respect of the applicable series of preferred stock to the record holders of depositary shares representing such preferred stock in proportion to the numbers of depositary shares owned by the holders on the relevant record date.

In the event of a distribution other than in cash, the depositary will distribute property received by it to the record holders of depositary shares entitled to such property, as nearly as practicable, in proportion to the number of depositary shares owned by the holder. However, if the depositary determines that it is not feasible to make such distribution, it may, with our approval, sell such property and distribute the net proceeds from such sale to the holders. The amounts distributed by the depositary may be reduced by any amount required to be withheld by us or the depositary on account of taxes.

Table of Contents

The deposit agreement will also contain provisions relating to the manner in which any subscription or similar rights we offer to holders of preferred stock shall be made available to holders of depositary shares.

Conversion and Exchange

If any preferred stock underlying the depositary shares is subject to provisions relating to its conversion or exchange as set forth in the prospectus supplement or term sheet relating thereto, each record holder of depositary shares will have the right or obligation to convert or exchange such depositary shares pursuant to its terms.

Redemption of Depositary Shares

If a series of preferred stock underlying the depositary shares is subject to redemption, the depositary shares will be redeemed from the proceeds received by the depositary resulting from the redemption, in whole or in part, of the series of preferred stock held by the depositary. The redemption price per depositary share will be equal to the aggregate redemption price payable with respect to the number of shares of such series of preferred stock underlying the depositary shares. Whenever we redeem a series of preferred stock from the depositary, the depositary will redeem as of the same redemption date a proportionate number of depositary shares representing the shares of such series of preferred stock that were redeemed. If less than all the depositary shares are to be redeemed, the depositary shares to be redeemed will be selected by lot or pro rata as we may determine.

After the date fixed for redemption, the depositary shares so called for redemption will no longer be deemed to be outstanding and all rights of the holders of the depositary shares will cease, except the right to receive the redemption price payable upon such redemption.

Voting

Upon receipt of notice of any meeting or action in lieu of any meeting at which the holders of any shares of a series of preferred stock underlying the depositary shares are entitled to vote, the depositary will mail the information contained in such notice to the record holders of the depositary shares relating to such shares of preferred stock. Each record holder of such depositary shares on the record date (which will be the same date as the record date for such series of preferred stock) will be entitled to instruct the depositary as to the exercise of the voting rights pertaining to the number of shares of such series of preferred stock underlying such holder's depositary shares. The depositary will endeavor, as practicable, to vote the number of shares of such series of preferred stock underlying such depositary shares in accordance with such instructions, and we will agree to take all action which may be deemed necessary by the depositary in order to enable the depositary to do so. If the depositary does not receive instructions from the holders of depositary shares, the depositary will abstain from voting the preferred stock that underlies these depositary shares.

Amendment of the Deposit Agreement

The form of depositary receipt evidencing the depositary shares and any provision of the deposit agreement may at any time be amended by agreement between us and the depositary. However, any amendment which materially and adversely alters the rights of the existing holders of depositary shares will not be effective unless such amendment has been approved by the holders of at least a majority of the depositary shares then outstanding.

Charges of Depositary

We will pay all transfer and other taxes and governmental charges that arise solely from the existence of the depositary arrangements. We will pay charges of the depositary in connection with the initial deposit of the applicable series of preferred stock and any exchange or redemption of such series of preferred stock. Holders of depositary shares will pay all other transfer and other taxes and governmental charges, and, in addition, such other charges as are expressly provided in the deposit agreement to be for their accounts.

Miscellaneous

We, or at our option, the depository, will forward to the holders of depositary shares all of our reports and communications which we are required to furnish to the holders of the series of preferred stock represented by the depository receipts.

Neither we nor the depository will be liable if we or the depository is prevented or delayed by law or any circumstances beyond our or its control in performing our or its obligations under the deposit agreement. Our obligations and the depository's obligations under the deposit agreement will be limited to performance in good faith and neither we nor the depository will be obligated to prosecute or defend any legal proceeding in respect of any depositary share or preferred stock unless satisfactory indemnity has been furnished. Both we and the depository may rely upon written advice of counsel or accountants, or information provided by persons presenting preferred stock for deposit, holders of depositary shares or other persons believed to be competent and on documents believed to be genuine.

Resignation and Removal of Depository; Termination of the Deposit Agreement

The depository may resign at any time by delivering notice to us of its election to do so, and we may at any time remove the depository. Any such resignation or removal will take effect upon the appointment of a successor depository and its acceptance of such appointment. We will appoint a successor depository within 60 days after delivery of the notice of resignation or removal. We may terminate the deposit agreement or it may be terminated by the depository if a period of 90 days expires after the depository has delivered written notice to us of its election to resign and we have not appointed a successor depository. Upon termination of the deposit agreement, the depository will discontinue the transfer of depository receipts, will suspend the distribution of dividends to the holders of depository receipts, and will not give any further notices (other than notice of such termination) or perform any further acts under the deposit agreement except that the depository will continue to deliver the applicable series of preferred stock certificates, together with dividends and distributions and the net proceeds of any sales of rights, preferences, privileges or other property in exchange for depository receipts surrendered prior to any such termination. Upon our request, the depository will deliver to us all books, records, certificates evidencing the applicable series of preferred stock, depository receipts and other documents relating to the subject matter of the deposit agreement.

Table of Contents

General

The rights of holders of Class A common stock and Class B common stock are identical except for voting, dividends and conversion rights. The rights of holders of Class 1 common stock are generally comparable to the rights of holders of Class B common stock except that shares of Class 1 common stock do not generally have voting rights and the circumstances under which shares of Class 1 common stock are convertible into shares of Class A common stock are limited.

Voting

Except as described below in connection with the election of directors and except where a separate class vote is required under Delaware law, the holders of Class A common stock and Class B common stock vote together as a single class on all matters submitted to a vote of the stockholders. In the instances in which the holders of Class A common stock and Class B common stock vote together as a single class, the holders of Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to 10 votes per share. Alternatively, in instances where the holders of Class A common stock and Class B common stock vote as separate classes, holders of both the Class A common stock and Class B common stock are entitled to one vote per share.

With respect to the election of directors at a meeting of stockholders, holders of Class A common stock, voting as a separate class, are entitled to elect one-fourth of the members of our board of directors (rounded up, if necessary, to the nearest whole number of directors). If the number of outstanding shares of Class B common stock is an amount equal to or greater than 12 1/2% of the aggregate number of outstanding shares of Class A common stock and Class B common stock, the holders of Class B common stock, voting as a separate class, are entitled to elect the remaining directors; otherwise, the holders of Class A common stock and Class B common stock, voting together as a single class, are entitled to elect the remaining directors (in which case the holders of Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to 10 votes per share).

Holders of Class 1 common stock are not entitled to vote except that such holders are entitled to vote as a separate class on matters with respect to which a separate class vote of holders of Class 1 common stock is required by law and are entitled to vote with respect to any increase or decrease in the authorized number of shares of Class 1 common stock as a single class with the holders of Class A common stock and Class B common stock (in which case the holders of Class 1 common stock and Class A common stock are entitled to one vote per share and the holders of Class B common stock are entitled to ten votes per share).

Dividends

If we declare and pay a cash dividend on Class B common stock, we must declare and pay a cash dividend on Class 1 common stock in the same amount per share, and if we declare and pay a cash dividend on Class 1 common stock, we must declare and pay a cash dividend on Class B common stock in the same amount per share. In addition, if we pay a cash dividend on Class B common stock and Class 1 common stock, each share of Class A common stock will receive a cash dividend in an amount at least 10% greater than the amount of the cash dividend per share paid on Class B common stock and Class 1 common stock. Our board of directors may declare and pay a dividend on Class A common stock without paying any dividend on Class B common stock or Class 1 common stock. Our senior credit facility may restrict the payment of cash dividends on our common stock under certain circumstances. Any indentures for debt securities issued in the future, the terms of any preferred stock issued in the future and any credit agreements entered into in the future may also restrict or prohibit the payment of cash dividends on our common stock.

Conversion

Each share of Class B common stock is convertible into one fully paid and non-assessable share of Class A common stock at the option of the holder at any time. The shares of Class A common stock are not convertible.

into or exchangeable for shares of Class B common stock or any of our other securities. Each holder of a share of Class 1 common stock may convert shares of Class 1 common stock into shares of Class A common stock on a one-for-one basis; provided such conversion is permitted only if the holder immediately sells the Class A common stock acquired upon conversion in a market transaction or to an unrelated party in a bona fide private sale. The Company does not intend to list the Class 1 common stock on the New York Stock Exchange or any other exchange. A holder wishing to sell shares of Class 1 common stock may convert such shares of Class 1 common stock into shares of Class A common stock (which are currently listed on the New York Stock Exchange) immediately prior to a qualifying sale of the shares. The terms of the Class 1 common stock do not impose any transfer restrictions on shares of Class 1 common stock; however, shares of Class 1 common stock may be subject to restrictions on transfer imposed by applicable securities laws.

Other Provisions

Holders of Class A common stock, Class B common stock and Class 1 common stock are entitled to share pro rata in the distribution of our assets available for such purpose in the event of our liquidation, dissolution or winding up, after payment of, or provision for, creditors and distribution of, or provision for, preferential amounts and unpaid accumulated dividends to holders of preferred stock, if any. Holders of Class A common stock, Class B common stock and Class 1 common stock have no preemptive rights to subscribe for any additional securities of any class which we may issue, and there are no redemption provisions or sinking fund provisions applicable to any such classes, nor is the Class A common stock, Class B common stock and Class 1 common stock subject to calls or assessments.

Certain Statutory Provisions

We are subject to Section 203 of the Delaware General Corporation Law. Section 203 prohibits a publicly held Delaware corporation from engaging in any “business combination” with any “interested stockholder” for a period of three years following the time that such person became an interested stockholder, unless

- prior to the time the interested stockholder becomes an interested stockholder, the board of directors approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owns at least 85% of the outstanding voting stock; or
- at or subsequent to the time the interested stockholder became an interested stockholder, the business combination is approved by the board of directors and authorized at a meeting of the corporation’s stockholders by the affirmative vote of at least two-thirds of the outstanding voting stock that is not owned by the interested stockholder.

For purposes of Section 203, a “business combination” includes a merger, assets sale or other transaction resulting in a financial benefit to the interested stockholder, and an “interested stockholder” is a person who, together with affiliates and associates, owns (or within three years, did own) 15% or more of the corporation’s voting stock.

specific formula set forth in the stock purchase contracts. Any stock purchase contract may include anti-dilution provisions to adjust the number of shares issuable pursuant to such stock purchase contract upon the occurrence of certain events.

Stock purchase contracts may be issued separately or as a part of units ("stock purchase units") consisting of a stock purchase contract and our debt securities or debt obligations of third parties, including U.S. Treasury securities, in each case securing holders' obligations to purchase Class A common stock, preferred stock or depository shares under the stock purchase contracts. The stock purchase contracts may require us to make periodic payments to the holders of the stock purchase units or vice versa, and such payments may be unsecured or prefunded on some basis. The stock purchase contracts may require holders to secure their obligations thereunder in a specified manner.

The applicable prospectus supplement or term sheet will describe the terms of any stock purchase contracts or stock purchase units.
